Installation and activation methods by license type and product version

Availability of deployment methods for each license type

	Standalone	Per Seat	Concurrent	Remote User
Installation on one computer (standard software installation)	+	+	Not recommended	+
Installation on a terminal server	-	-	+	+
Installation on more than one computer: administrative installation with License Manager	-	+	+	+
Installation on more than one computer: multi-user administrative installation point with automatic activation	-	+	-	-

Deployment methods

Installation on one computer (standard software installation)

1. This method is suitable for all license types except **Concurrent**.
2. After FineReader is installed, it will need to be activated.

Installation on more than one computer

You can create an administrative installation point for deploying ABBYY FineReader PDF 15 from a server to multiple workstations.

ABBYY FineReader will be activated by the License Server without any additional input.

1. Create an administrative installation point

Administrative installation point with the License Server and License Manager

- An internet connection on workstations is not required.
- The License Manager is required.
- The product can only be installed on workstations in the same LAN.

Multi-user administrative installation point with Per-Seat licenses and automatic activation

- An internet connection is required on workstations.
- The License Manager is not required.
- This method makes it possible to deploy FineReader on computers in different LANs.

2. Deploying methods

Install ABBYY FineReader on workstations using one of the following methods:

- Manually in interactive mode
- Via the command line
Lets you perform a silent installation. No dialog boxes will be displayed during setup.
- Using Active Directory
 - This method can only be used with **Group Policy Management** to deploy FineReader to specific computers or a group of computers.
 - Specific menu items and options that require an internet connection can be hidden. Software behavior can also be modified. For more information, see [Using a group policy to configure ABBYY FineReader PDF 15](#) ⁴⁹.
- Using Microsoft System Center Configuration Manager (SCCM)
This method provides the most automation.

Installation on a terminal server

With a **Concurrent** or **Remote User** license:

1. If you choose this type of license, you will need to create an administrative installation point and install the License Server and the License Manager.
2. ABBYY FineReader PDF 15 is activated using the License Manger.
3. A license server should be deployed on a machine that is accessible for all terminal servers at all times.

Deploying ABBYY FineReader PDF 15 in a LAN (installation on more than one computer)

ABBYY FineReader PDF 15 can be installed and used on a local area network.

The automated installation methods give you speed and flexibility when installing ABBYY FineReader PDF 15 on a local area network, as you do not have to install the program manually on each individual workstation.

ABBYY FineReader can be deployed from any computer running under Microsoft Windows 7 (or later).

The deployment process comprises the following steps:

1. Performing an Administrative installation

- Installing ABBYY FineReader PDF 15 License Server and ABBYY FineReader PDF 15 License Manager

For detailed instructions, see [Installing the License Server and the License Manager](#)^[11].

Note. The computer on which ABBYY FineReader PDF 15 License Manager is installed becomes a License Administrator Station.

- Creating an administrative installation point

For detailed instructions, see [Creating an administrative installation point](#)^[13].

Note. You can change the network connection settings used by the License Server, the License Manager, and the workstations. For details, see [How can I change the network connection settings?](#)^[56]

Note. The administrative installation point and the License Server can be located either on the same computer or on different computers.

2. Managing the licenses

Licenses are managed by means of the ABBYY FineReader PDF 15 License Manager.

For the licenses to be correctly distributed among the workstations when installing and using ABBYY FineReader PDF 15, you are required to give certain workstations/users priority in obtaining licenses.

To do this, you should reserve licenses and license pools for specific workstations/users.

A license pool is a set of licenses of the same type. Pools make it easier to manage licenses: for example, you can add multiple licenses to a pool and then reserve the pool for specific workstations/users instead of reserving each license individually.

For details, see [Managing Licenses](#)^[14].

3. Installing ABBYY FineReader on workstations using one of the following methods:

- manually in interactive mode
- via the command line
- Using Active Directory

- Using Microsoft System Center Configuration Manager (SCCM)

For detailed instructions, see [Installing ABBYY FineReader PDF 15 on Workstations](#)¹⁸.

Note. The 32-bit version of ABBYY FineReader PDF 15 cannot be installed on a 64-bit system. The same is true for the 64-bit version on a 32-bit system.

Important!

Do not place the License Server into the same folder with the administrative installation point.

Administrative installation folder requirements

1. 1.2 GB of free hard-drive space to create an administrative installation point.
2. Read access to the administrative installation folder (e.g. \\MyFileServer\Distribs\ABBYY **FineReader PDF 15**) for all users on whose computers ABBYY FineReader is to be installed.
3. The server with the administrative installation point must be a file server running under any operating system that supports long file names.
4. When using Active Directory to deploy ABBYY FineReader PDF 15, the **Domain Computers** accounts must have read permissions for the administrative installation folder.

License Server requirements

1. 100 MB of free hard-drive space to create license files and accounts.
2. The server (\\MyLicenseServer) on which the License Server is installed must run under Microsoft Windows 10, Microsoft Windows 8.1, Microsoft Windows 8, Microsoft Windows 7, Microsoft Windows Server 2019, Microsoft Windows Server 2016, Microsoft Windows Server 2012, Microsoft Windows Server 2012 R2, Microsoft Windows Server 2008 R2.
3. The number of connections supported by the operating system of the License Server must be at least equal to the total number of potential users of the program (for **Concurrent** and **Remote User** licenses).
4. A stable connection to the license server on all workstations.

License Administrator Station requirements

1. PC running under Microsoft Windows 10, Microsoft Windows 8.1, Microsoft Windows 8, Microsoft Windows 7, Microsoft Windows Server 2019, Microsoft Windows Server 2016, Microsoft Windows Server 2012, Microsoft Windows Server 2012 R2, Microsoft Windows Server 2008 R2.
2. The operating system must support the selected interface language.
3. 100 MB of free hard-drive space.

Workstation requirements

1. 1 GHz or faster 32-bit (x86) or 64-bit (x64) processor with SSE2 support.
2. Operating System: Microsoft Windows 10, Microsoft Windows 8.1, Microsoft Windows 8, Microsoft Windows 7, Microsoft Windows Server 2019, Microsoft Windows Server 2016, Microsoft Windows Server 2012, Microsoft Windows Server 2012 R2, Microsoft Windows Server 2008 R2. The operating system must support the selected interface language.
3. 1024 RAM (4 GB recommended); in multiprocessor systems, an additional 512 MB of RAM is required for each additional processor.
4. 1.2 GB of hard-drive space for installation of all program components and an additional 1.2 GB for program operation.
5. Video card and monitor supporting a resolution of at least 1024*768.
6. Keyboard and mouse or other pointing device.

Administrative installation with License Server and License Manager

Installing the License Server and the License Manager

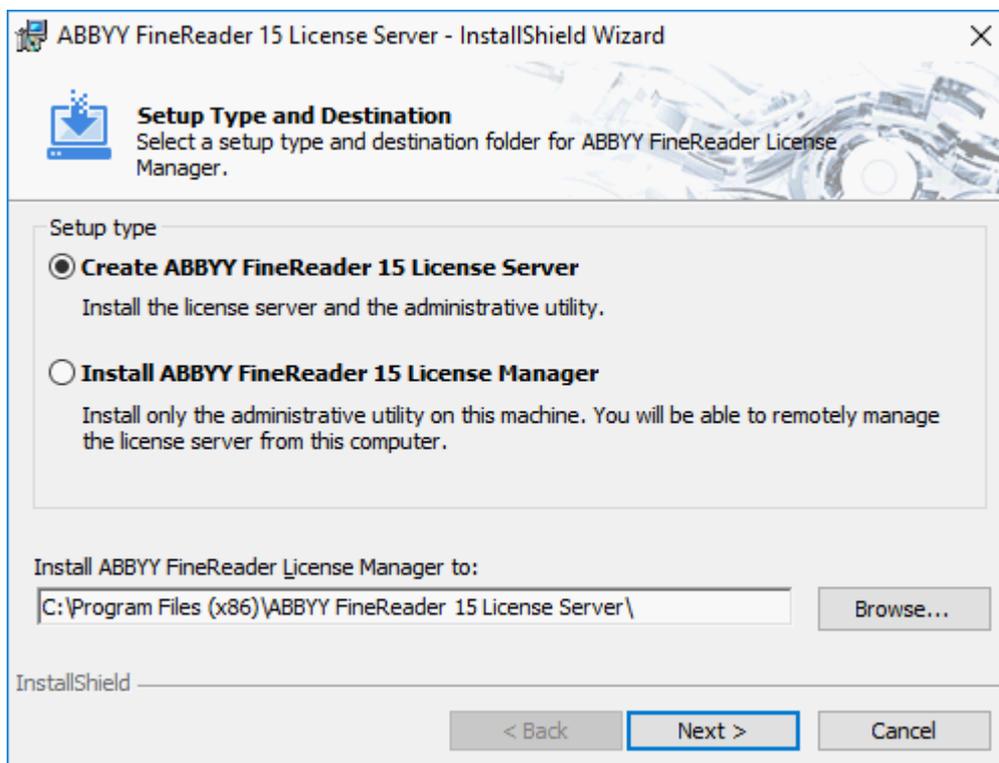

1. Launch the **AutoRun.exe** file from the installation folder and choose **Mass Installation > Install and activate using the License Manager > Step 1. Install the License Server and the License Manager**.

Alternatively, launch the **License Server\Setup.exe** file from the installation folder.

2. Follow the instructions of the setup program.

During setup, you can:

- Install ABBYY FineReader License Server and ABBYY FineReader License Manager.
The License Server and the License Manager will be installed on the same computer. You can specify the folder where you want to install the License Manager.
- Install only ABBYY FineReader PDF 15 License Manager. You will need to specify a folder into which the License Manager is to be installed and specify the name of the computer running the License Server.

Notes:

1. If several users will be managing the ABBYY FineReader PDF 15 licenses, they must have the License Manager installed on their computers.
2. Each user must be a member of one of the two local groups on the server:
 - ABBYY Licensing Administrators
 - BUILTIN\Administrators

You can disable user authorization in the file **%commonprogramfiles%**

\ABBYY\FineReader\15\Licensing\NetworkLicenseServer.ini

(or **%commonprogramfiles(x86)%\ABBYY\FineReader\15\Licensing\NetworkLicenseServer.ini** if you are using a 64-bit system).

This file is located on the computer where the License Server has been installed.

Add the following parameter to this file:

[Licensing]

EnableManagerAuthorization = false

Important! For the changes to take effect, you must restart the ABBYY FineReader PDF 15 Licensing Service.

Creating an administrative installation point

1. Launch the **AutoRun.exe** file from the installation folder and choose **Mass Installation > Install and activate using the License Manager > Step 2. Create an administrative installation.**

Alternatively, use the command line to run the following command in the installation folder:

Setup.exe /a.

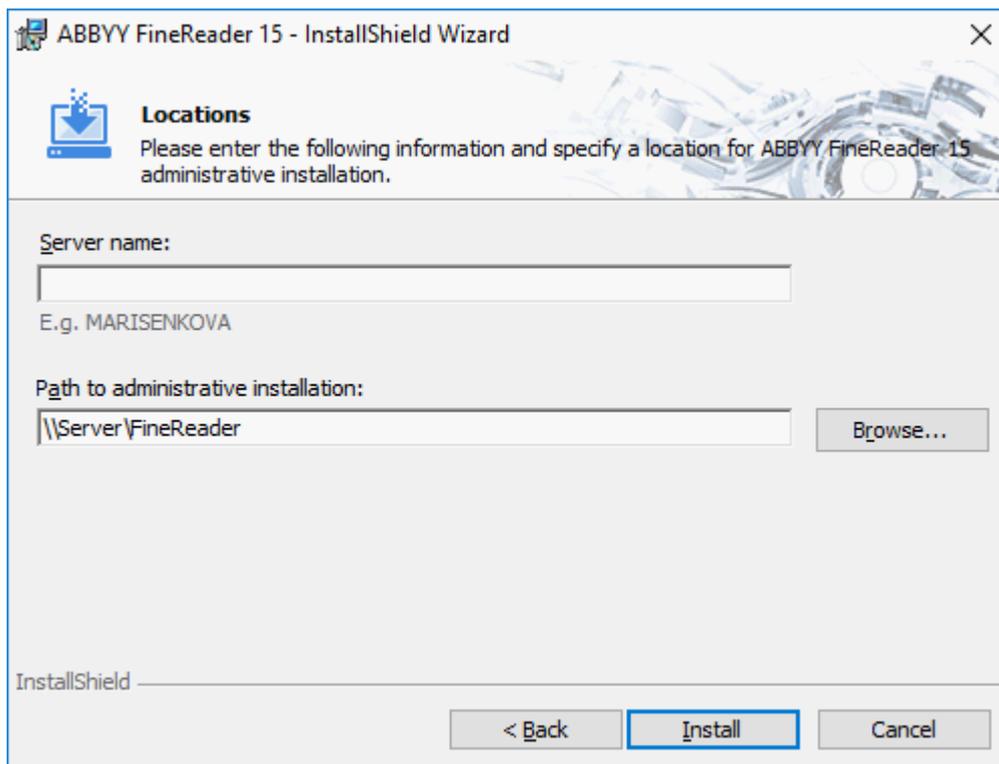

Note: see [Additional command-line options for silent installation](#)¹⁹⁾ with additional options for command line installation.

2. Follow the instructions of the setup program.

When the setup program prompts you, specify the following:

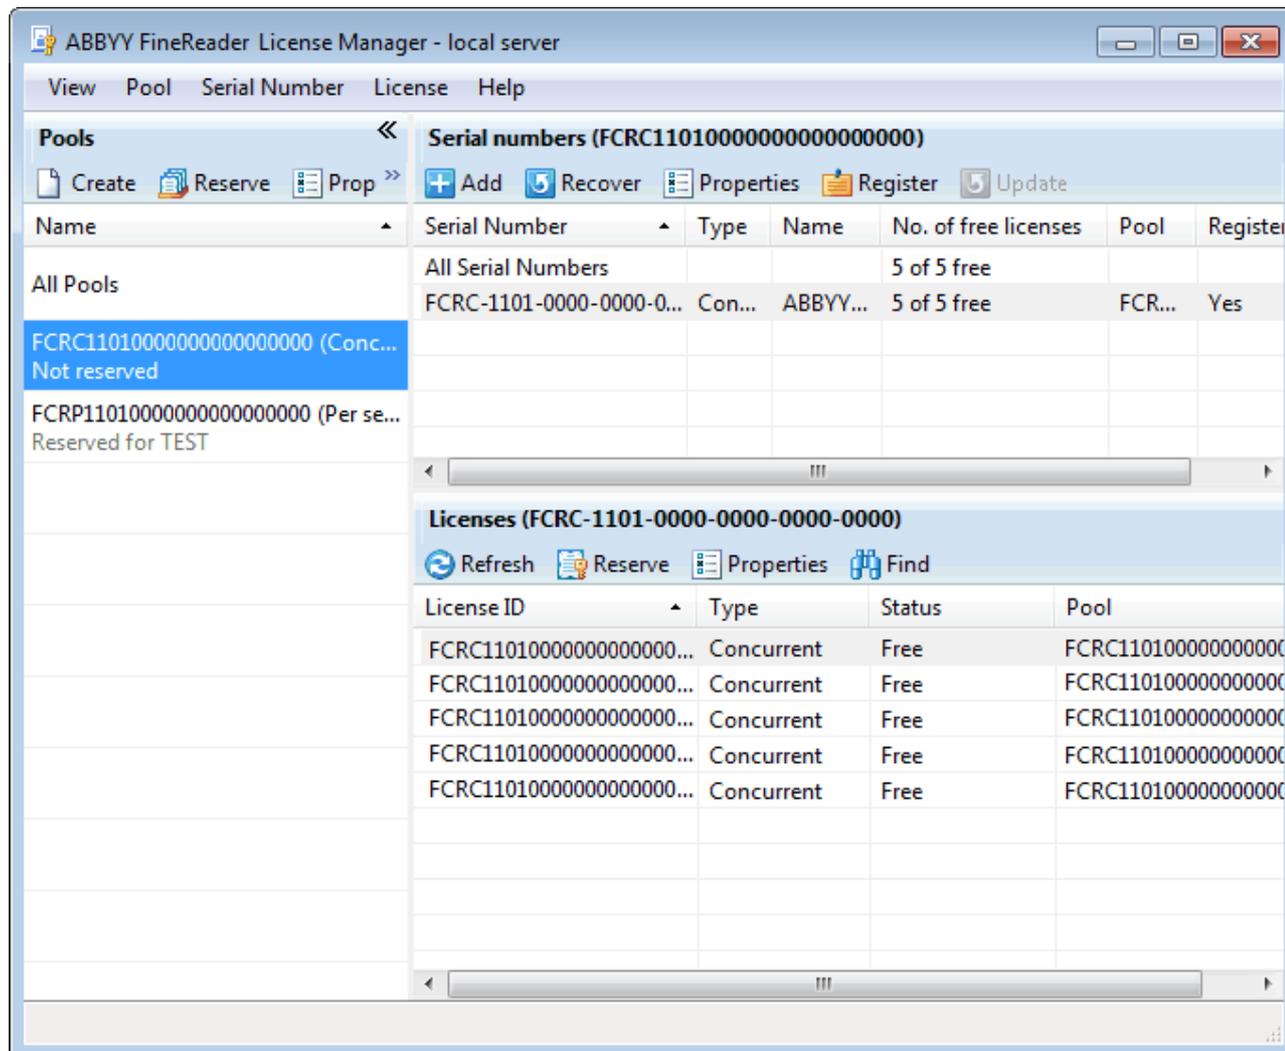

- The name of the computer where the License Server is to be installed
Note: A server's IP address can be used instead of its name.
- The path to the administrative installation folder

Important! Avoid moving the administrative installation folder after ABBYY FineReader is installed on the workstations.

Managing Licenses

ABBYY FineReader PDF 15 License Manager is a special application provided with ABBYY FineReader PDF 15 and intended for managing ABBYY FineReader licenses. The application is installed on the License Administration Station when ABBYY FineReader PDF 15 is deployed in a local area network (see [Installing the License Server and the License Manager for details](#) ^(1†)).

Configure your licenses with ABBYY FineReader PDF 15 License Manager:

1. Add your licenses to ABBYY FineReader PDF 15 License Manager.
An ABBYY FineReader PDF 15 license (or group of licenses) has a unique serial number which identifies it. To activate a license and add it to ABBYY FineReader PDF 15 License Manager, you must activate its serial number.
2. Create license pools and add the necessary licenses to the pools.
A pool of licenses is a set of licenses of equal standing that have the same type. License pools make working with licenses easier. For example, instead of reserving each license separately, you can add them to a license pool and reserve that pool for the appropriate workstations/users.

3. Reserve pools and licenses for the appropriate workstations and users.

Prior to installing ABBYY FineReader PDF 15 on the workstations, you must distribute the licenses among the workstations/users in ABBYY FineReader PDF 15 License Manager. The distribution process is carried out by means of reserving a license for a specific workstation/user. Once a license is reserved, only the specified workstation/user will be able to use it.

Important! Reserve the Per Seat licences and pools before you start installing ABBYY FineReader PDF 15 on the workstations. To bind a workstation to a server or unbind it from a server after ABBYY FineReader has been installed on it, you will need to remove the program from the workstation. To move a Per-Seat license from one workstation to another after ABBYY FineReader has been installed, you will need to deactivate the license. The number of allowed deactivations is limited.

For more information about license types and about working with ABBYY FineReader PDF 15 License Manager, see the ABBYY FineReader PDF 15 License Manager help file.

Deploying a multi-user distribution package with per-seat licenses and automatic activation

Deploying a multi-user distribution package with automatic activation does not require installing the License server and the License Manager.

Deploying a multi-user distribution package on a local area network comprises the following steps:

1. **Creating a multi-user administrative installation point**

At this step, a multi-user activation key is added to the distribution package, which allows installing ABBYY FineReader on workstations without the need to enter a serial number.

For detailed instructions, see [Creating a multi-user administrative installation point with Per-Seat licenses](#)^[17].

2. **Installing ABBYY FineReader on workstations using one of the following methods:**

- manually in interactive mode
- via the command line
- Using Active Directory
- Using Microsoft System Center Configuration Manager (SCCM).

For detailed instructions, see [Installing ABBYY FineReader PDF 15 on Workstations](#)^[18].

Note. The 32-bit version of ABBYY FineReader PDF 15 cannot be installed on a 64-bit system. The same is true for the 64-bit version on a 32-bit system.

Administrative installation folder requirements

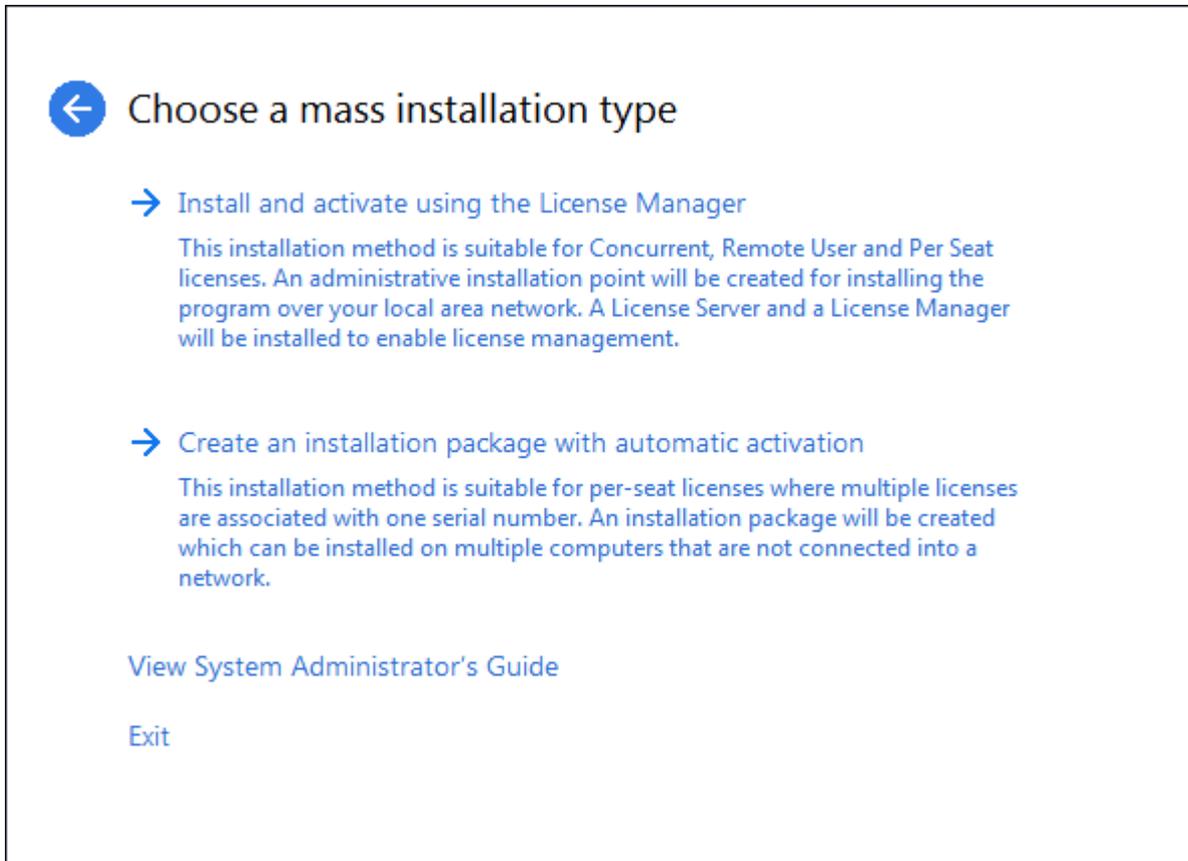

1. 1.2 GB of free hard-disk space to create an administrative installation point.
2. Read access to the administrative installation folder (e.g. \\MyFileServer\Programs Distributions\ABBYY FineReader PDF 15) for all users on whose computers ABBYY FineReader is to be installed.
3. The server on which the administrative installation point is created must be a file server running under any operating system that supports long file names.
4. When using Active Directory to deploy ABBYY FineReader PDF 15, the **Domain Computers** accounts must have read permissions for the administrative installation folder.
5. The path should meet the following requirements:
 - The path may not contain any characters outside the code page of the language selected as the default system language for non-Unicode applications.
 - The names of intermediate folders may not start with a space.

Workstation requirements

1. 1 GHz or faster 32-bit (x86) or 64-bit (x64) processor with SSE2 support.
2. Operating System: Microsoft Windows 10, Microsoft Windows 8.1, Microsoft Windows 8, Microsoft Windows 7, Microsoft Windows Server 2019, Microsoft Windows Server 2016, Microsoft Windows Server 2012, Microsoft Windows Server 2012 R2, Microsoft Windows Server 2008 R2. The operating system must support the selected interface language.
3. 1024 RAM (4 GB recommended); in multiprocessor systems, an additional 512 MB of RAM is required for each additional processor.
4. 1.2 GB of hard-drive space for installation of all program components and an additional 1.2 GB for program operation.
5. Video card and monitor supporting a resolution of at least 1024*768.
6. Keyboard and mouse or other pointing device.

Creating a multi-user administrative installation point with Per-Seat licenses

1. Launch the **AutoRun.exe** file from the installation folder and choose **Mass Installation > Create an installation package with automatic activation** and select the appropriate administrative installation point version.

Alternatively, use the command line to run the following command in the installation folder:

Setup.exe /a.

Note: see [Additional command-line options for silent installation](#)²²⁾ with additional options for command line installation

2. Follow the instructions of the setup program.

You can create a new administrative installation point with a multi-user activation key: specify the path to the folder where the new administrative installation point will be located. The path should meet the following requirements:

- The path may not contain any characters outside the code page of the language selected as the default system language for non-Unicode applications.
- The names of intermediate folders may not start with a space.

As a result, an ABBYY FineReader distribution package will be created which can be installed on workstations without the need to enter a serial number. The product will be activated over the Internet automatically, without asking the user for any confirmation. The workstation on which the product is being installed must be connected to the Internet.

Installing ABBYY FineReader PDF 15 on Workstations

Important! Prior to installing ABBYY FineReader PDF 15 on workstations, you must:

- Create an administrative installation point and configure licenses using the ABBYY FineReader PDF 15 License Manager (see [Installing the License Server and the License Manager](#)^[11], [Creating an administrative installation point](#)^[13] and [Managing Licenses](#)^[14]).

Note. A workstation obtains a per-seat license and is bound to the server only when ABBYY FineReader PDF 15 is installed on it. How this happens depends on the configuration of the licenses at the time of the installation.

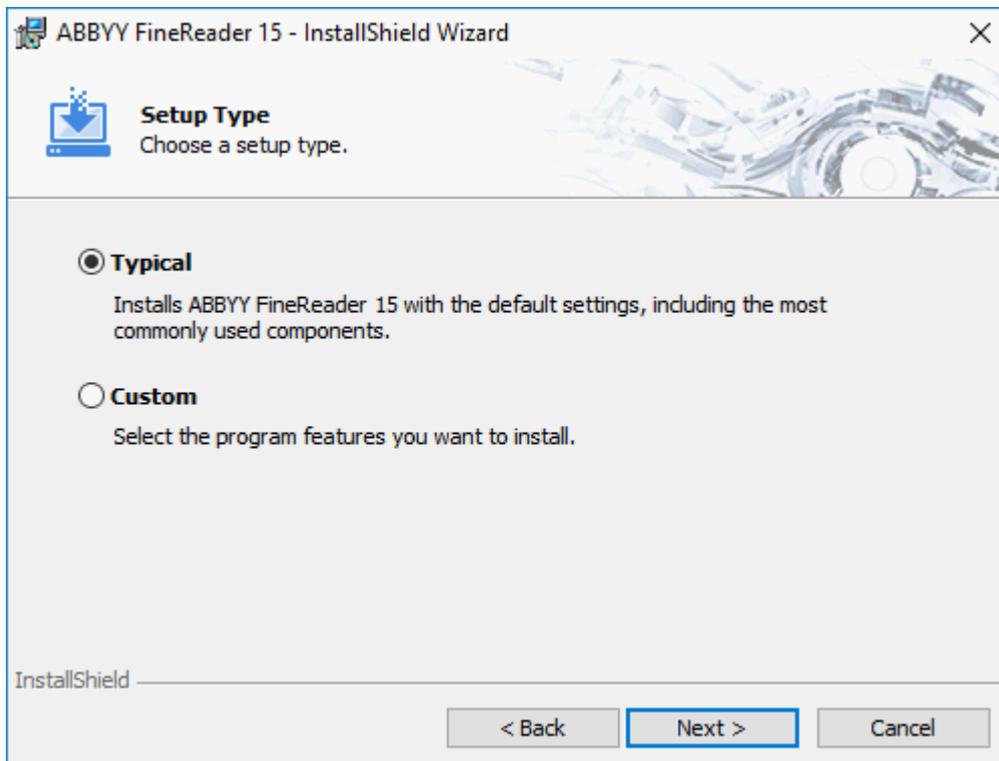

or

- Create a multi-user administrative installation point (see [Deploying a multi-user distribution package with per-seat licenses and automatic activation](#)^[15]).

Note. If a workstation was cloned from another machine, you must change the value of the Security Identifier (SID) before installing ABBYY FineReader to avoid malfunctions of the licensing mechanism.

Interactive installation

1. Create an administrative installation point (see Administrative installation) or a multi-user administrative installation point (see [Deploying a multi-user distribution package with per-seat licenses and automatic activation](#)^[15]).
2. Run the setup.exe file in the administrative installation folder.

3. Follow the instructions of the setup wizard.

Command line installation

1. Create an administrative installation point (see [Administrative installation with License Server and License Manager](#)^[10]) or a multi-user administrative installation point (see [Deploying a multi-user distribution package with per-seat licenses and automatic activation](#)^[15]).
2. Run the **setup.exe** file in the administrative installation folder using the command line parameters described below.

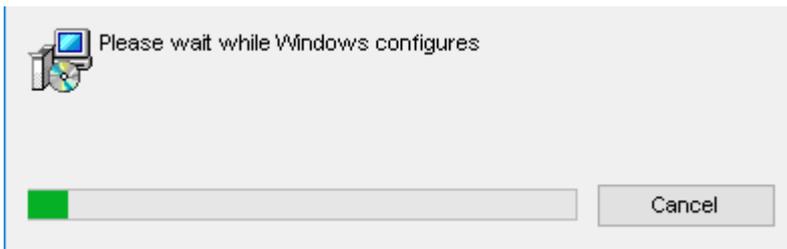

Silent installation

For silent installation, type

Setup.exe /qn

In the case of silent installation, no setup dialog boxes are displayed and the program is installed in default configuration (the interface language is selected automatically based on the regional settings of the computer).

Note. Change **"/qn"** to **"/qb"** if you want an installation progress bar to be displayed. No other dialog boxes will be displayed.

Using Windows Installer

To install ABBYY FineReader PDF 15 using Windows Installer, run the following command from a command prompt:

msiexec.exe /i "%pathtofile%" /qb

where %pathtofile% is the path to the **ABBYY FineReader 15 x64.msi** file for 64-bit systems, or the path to the **ABBYY FineReader 15.msi** file for 32-bit systems.

Note: Instead of **/qb**, you may also choose to use **/qn** or **/q**.

Important! ABBYY FineReader PDF 15 cannot be installed in interactive mode using Windows Installer.

To install ABBYY FineReader PDF 15, you can use one of the following *.msi files:

1. the *.msi file from the administrative installation folder (see [Creating an administrative installation point](#) ⁽¹⁰⁾)
2. the *.msi file from a distribution package with automatic activation (see [Deploying a multi-user distribution package with per-seat licenses and automatic activation](#) ⁽¹⁵⁾)
3. the *.msi file from the folder containing the setup files

Important! Please make sure that the Visual C++ Redist is already installed on the workstation. You can download the Visual C++ Redist [here](#) or install it from the VC_Redist folder, which can be found in the folder containing the setup files.

To install the Visual C++ Redist from the VC_Redist folder:

- for a 32-bit system, run **vcredist_x86.exe**
- for a 64-bit system, run **vcredist_x86.exe** and **vcredist_x64.exe**, in any order.

Additional command-line options for silent installation

/L<language code> disables automatic selection of the interface language and installs ABBYY FineReader with the interface language specified in the command line.

When you install using msi: Transforms=<LANGID>.mst

Possible **language code*** or **LANGID** values:

- 1026 Bulgarian
- 1028 Chinese (Traditional)
- 1029 Czech
- 1030 Danish
- 1031 German
- 1032 Greek
- 1033 English
- 1034 Spanish
- 1036 French
- 1038 Hungarian
- 1040 Italian
- 1041 Japanese
- 1042 Korean
- 1043 Dutch
- 1045 Polish
- 1046 Portuguese (Brazilian)
- 1049 Russian
- 1051 Slovak
- 1053 Swedish
- 1055 Turkish
- 1058 Ukrainian
- 1066 Vietnamese

2052 Chinese (Simplified)

*The number of available interface languages depends on the type of your distribution package.

/a – creates an administrative installation point

/V"<command line>" passes the specified command line directly to msixexec.exe. Instead of the words "command line" you can specify the following:

INSTALLDIR="<path>"	The path to the folder where ABBYY FineReader PDF 15 will be installed.
EXPLORER_INTEGRATION=0	ABBYY FineReader PDF 15 will not be integrated with Windows Explorer.
SHCTDESKTOP=0	The ABBYY FineReader PDF 15 icon will not be placed on the desktop.
SSR_AUTORUN=0	ABBYY Screenshot Reader will not be started at system startup.
DONT_ASK_ABOUT_DEFAULT=1	ABBYY FineReader PDF 15 will not prompt the user to make it the default application for opening PDF files.
STATISTICS_ALLOWED=0	Prevents ABBYY FineReader PDF 15 from sending information about the selected settings to ABBYY over the Internet.
CHECK_UPDATES=0	Disables update checks.
INSTALL_UPDATES=0	Prevents ABBYY FineReader PDF 15 from downloading and installing updates.
MARKETING_TIPS_ALLOWED=0	Disables advertising messages.
SSR=0	ABBYY Screenshot Reader will not be installed.
HF=0	ABBYY Hot Folder will not be installed.
COMPARATOR=0	ABBYY Compare Documents will not be installed.
SN=<serial number>	The serial number for automatic activation of a Per-Seat license.

LIC_SERVER_NAME= <path>	The path to the License Server.
ADMIN_SETUP=Serial/Server	<p>Runs an administrative installation in one of the following modes:</p> <p>ADMIN_SETUP=Serial Displays a dialog box where you can enter a serial number for automatic activation.</p> <p>ADMIN_SETUP=Server Displays a dialog box where you can specify the path to the License Server.</p> <p>Note: The ADMIN_SETUP parameter should be passed to setup.exe exclusively through a combination of the "/a /v" keys.</p>
EULA_ACCEPTED=1	Suppresses the display of the ABBYY FineReader PDF 15 End-User License Agreement. The EULA and the Privacy Policy will be deemed to have been accepted.

Example:

Setup.exe /qn /L1049 /v INSTALLDIR="C:\ABBYY FineReader PDF 15" STATISTICS_ALLOWED=0

This will install ABBYY FineReader PDF 15 into C:\ABBYY FineReader PDF 15. The menus, dialog boxes and other interface elements will be in Russian. Information about the selected ABBYY FineReader settings will not be sent to ABBYY over the Internet. The set of available OCR languages depends on the type of the distribution package.

Uninstalling ABBYY FineReader PDF 15 in silent mode

Run the following command on the workstation:

msiexec /x {Product Code},

and depending on installation type and Windows architecture, specify one of the following instead of **{Product Code}**:

	x86	x64
Base/Full installation	{F15000FE-0001-0000-0000-074957833700}	{F15000FE-0001-6400-0000-074957833700}
SLE installation	{F15000BE-0001-0000-0000-074957833700}	{F15000BE-0001-6400-0000-074957833700}

E.g.:

msiexec /x {F15000FE-0001-0000-0000-074957833700}

Using Active Directory

The Microsoft Windows Server family of operating systems includes the **Active Directory** (AD) service. The **Group Policy** feature of the **Software Installation** component of AD can be used to remotely install software on multiple workstations at the same time.

There are three installation methods in Active Directory:

1. **Publish to User** (not supported)
2. **Assign to User** (not supported)
3. **Assign to Computer**

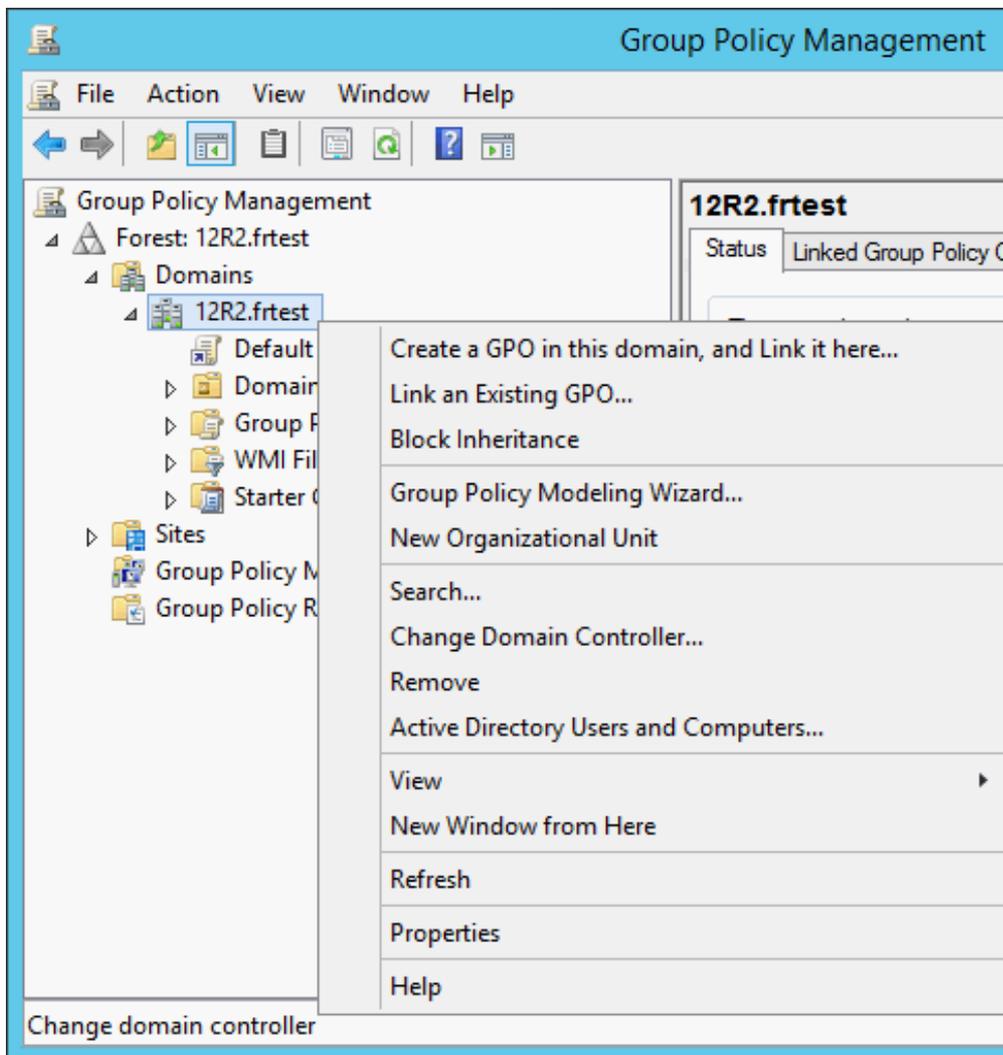

ABBYY FineReader PDF 15 can only be installed using the **Assign to Computer** method.

Important! The installation of FineReader on a workstation will only be completed after the workstation is restarted.

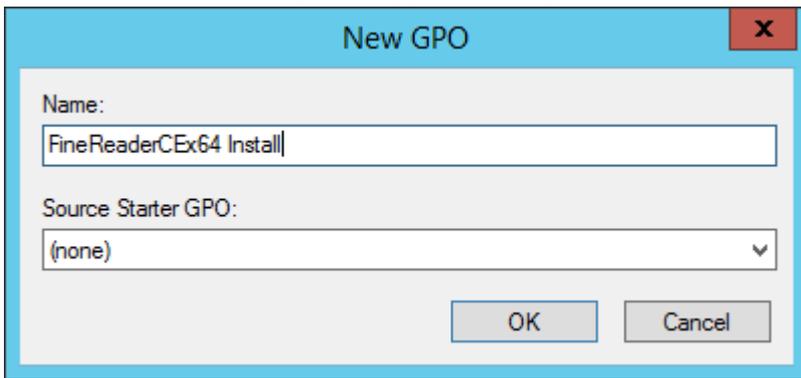

Example: deploying ABBYY FineReader PDF 15 using Active Directory

The following example illustrates deployment under Microsoft Windows Server 2012 R2.

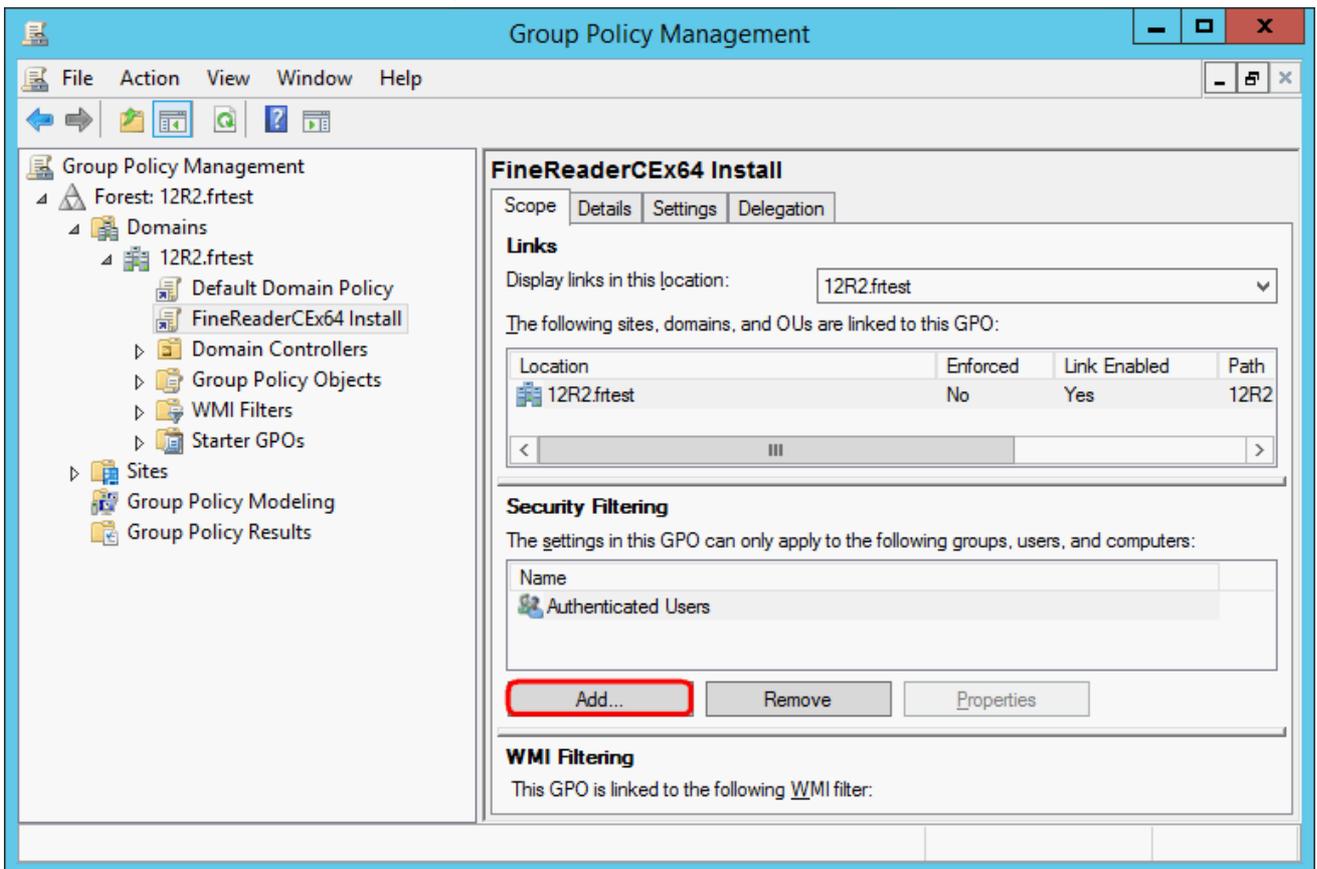

1. Create an administrative installation point (see [Administrative installation with License Server and License Manager](#)^[10]) or a multi-user installation point (see [Deploying a multi-user distribution package with per-seat licenses and automatic activation](#)^[15]).
Note. When using Active Directory to deploy ABBYY FineReader PDF 15, the Domain Computers accounts must have read permissions for the administrative installation folder.
2. Start the **Group Policy Management Console (gpmc.msc)**.
3. In the tree on the left, select a site, domain or other organizational unit that contains a computer or a group of computers. FineReader will be installed on these computers.
4. Right-click the tree node you selected and click **Create a GPO ... and Link it here...** on the shortcut menu

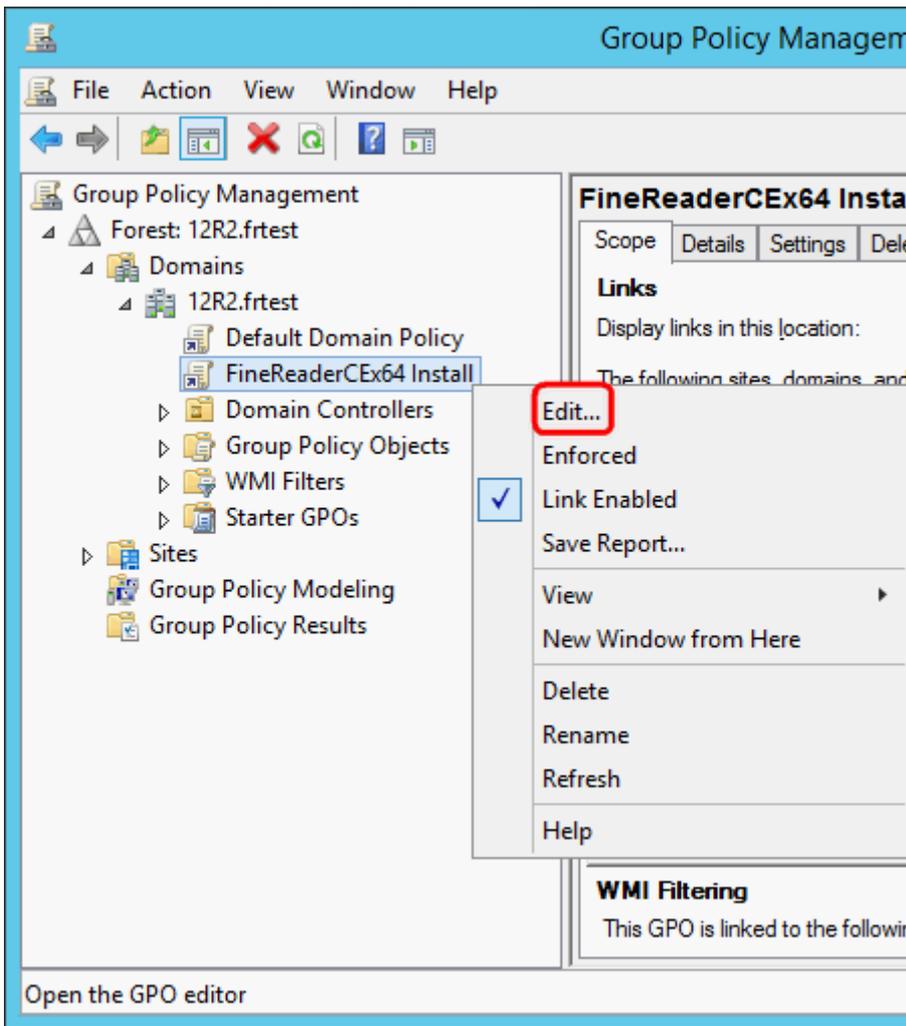

5. In the **New GPO** dialog box, type a descriptive name and click **OK**.

6. Select the **Scope** tab, click the **Add...** button in the **Security Filtering** group and specify the groups that contain the computers where you want to install ABBYY FineReader PDF 15.

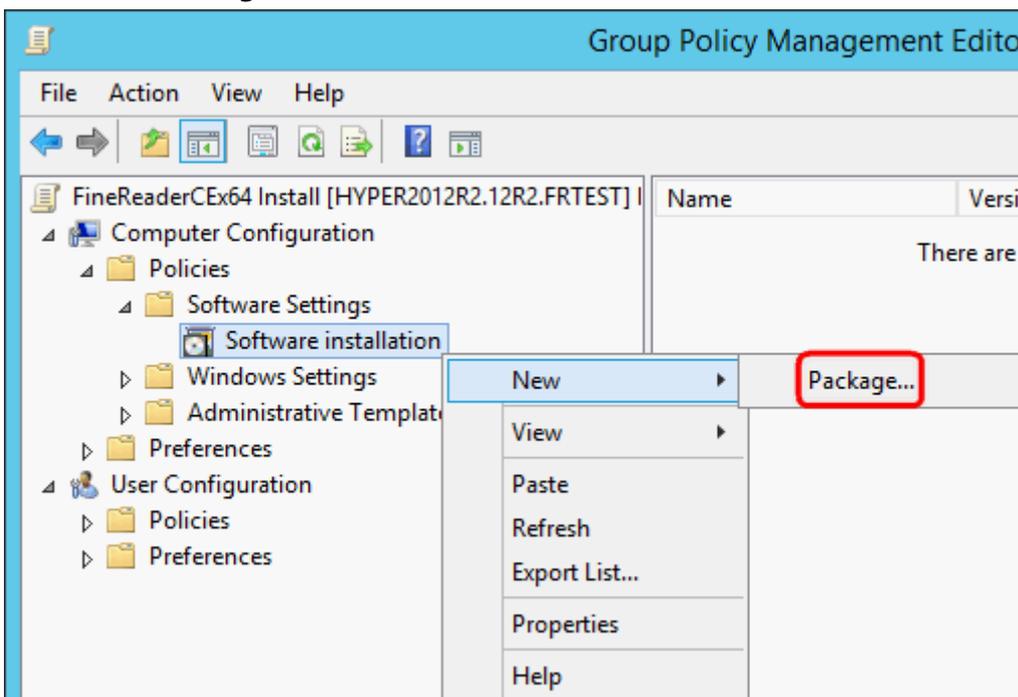

7. Right-click the Group Policy Object (GPO) you created and click **Edit...** on the shortcut menu

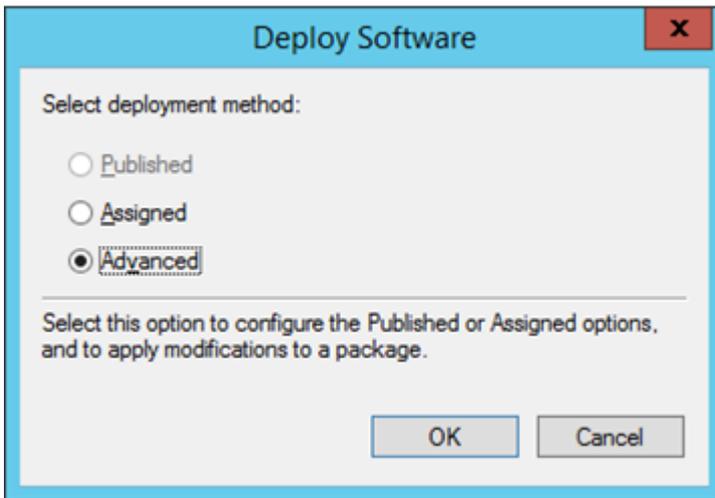

8. In the **Group Policy Management Editor** dialog box, click **Computer Configuration>Policies>Software Settings>Software installation.**

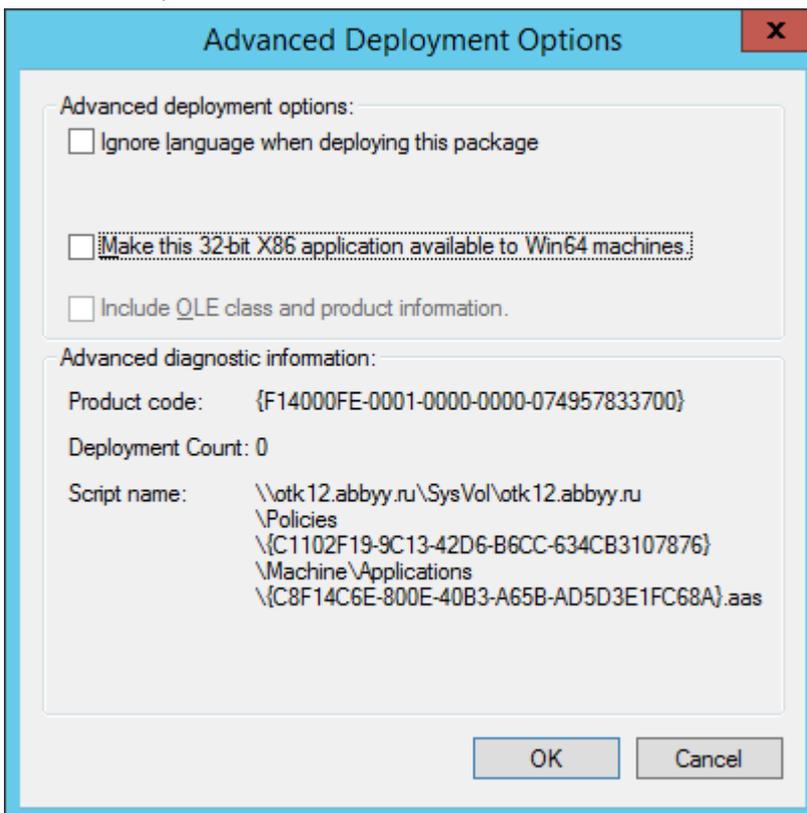

9. Click **New>Package...** on the shortcut menu.

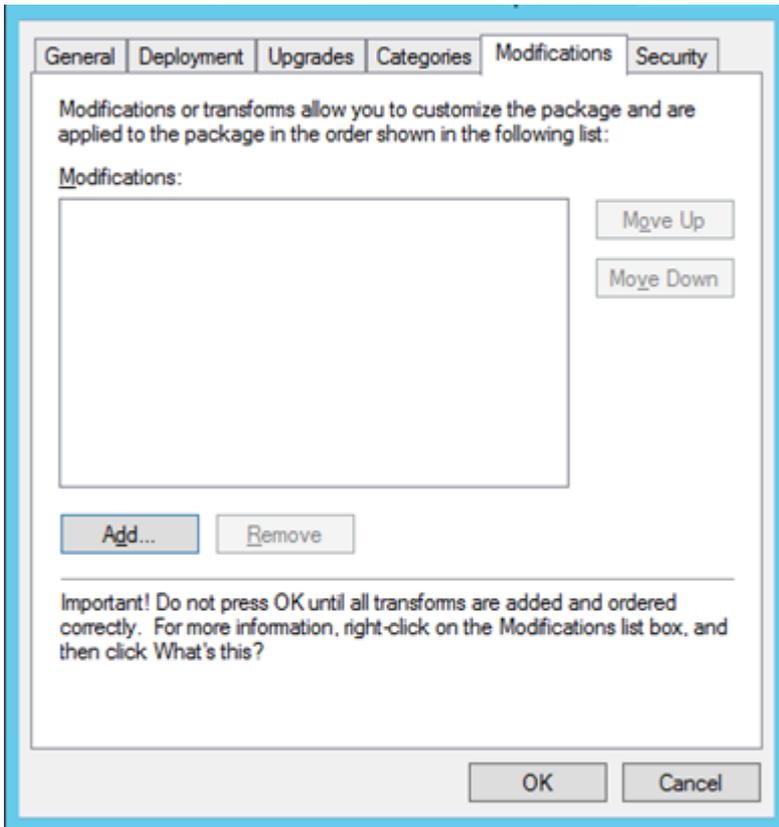

- 10. Specify the network path to the **ABBYY FineReader 15.msi** file (when installing on 32-bit systems) or the **ABBYY FineReader 15 x64.msi** file (when installing on 64-bit systems). These files are located in the ABBYY FineReader PDF 15 administrative installation folder on the server.
- 11. Select the **Advanced** deployment method.

- 12. A dialog box will open. If you are installing the 32-bit version, click the **Advanced** button on the **Deployment** tab and make sure the **Make this 32-bit X86 application available to Win64 machines** option is disabled.

13. Select the **Modifications** tab and click **Add...**

14. Select the interface language file of the desired ABBYY FineReader PDF 15 interface language. The language files are located in the administrative installation folder on the server.

File names and their languages:

1026.mst Bulgarian

1028.mst Chinese (Traditional)

1029.mst Czech

1030.mst Danish

1031.mst German

1032.mst Greek

1033.mst English

1034.mst Spanish

1036.mst French

1038.mst Hungarian

1040.mst Italian

- 1041.mst Japanese
- 1042.mst Korean
- 1043.mst Dutch
- 1045.mst Polish
- 1046.mst Portuguese (Brazilian)
- 1049.mst Russian
- 1051.mst Slovak
- 1053.mst Swedish
- 1055.mst Turkish
- 1058.mst Ukrainian
- 1066.mst Vietnamese
- 2052.mst Chinese (Simplified)

E.g.: To install ABBYY FineReader with the Russian interface, select 1049.mst.

Using Microsoft System Center Configuration Manager (SCCM)

Microsoft System Center Configuration Manager allows remote software deployment on a corporate network to be as automated as possible.

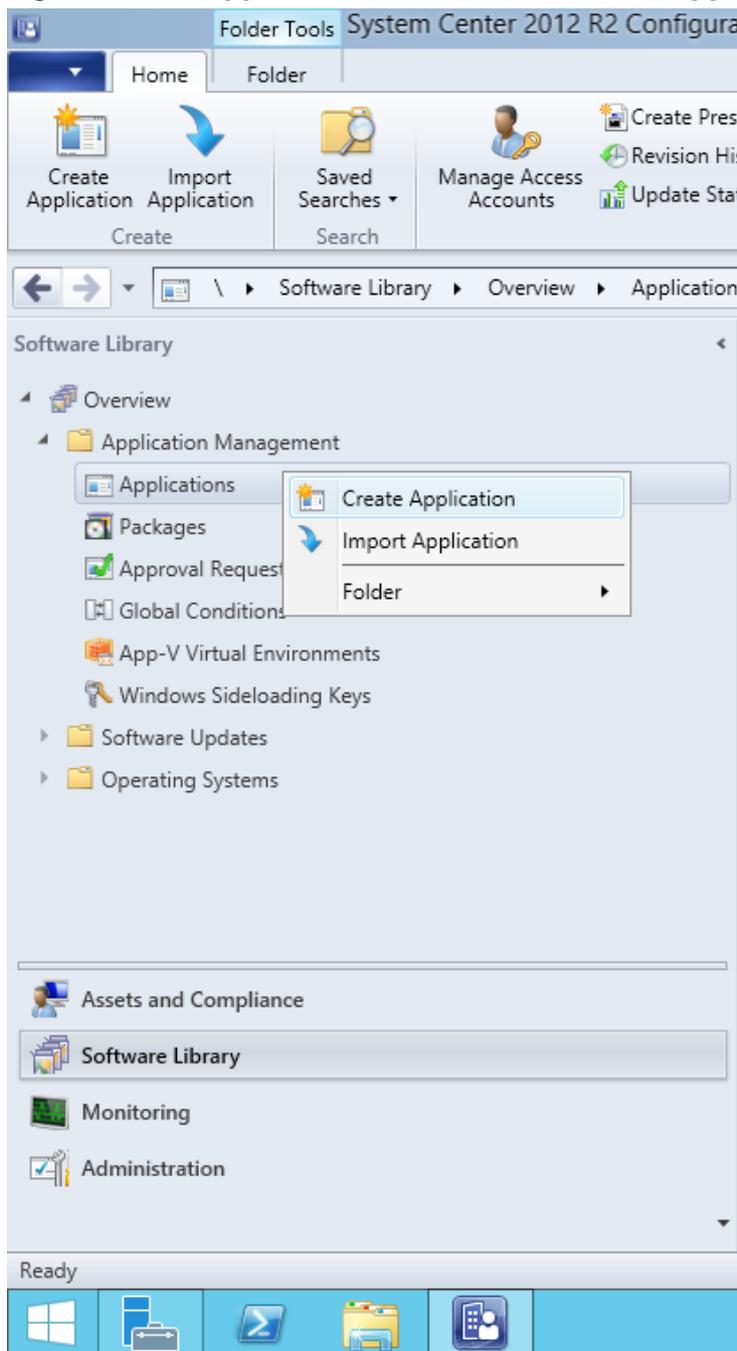

Software deployment using SCCM comprises three stages:

1. Preparing ABBYY FineReader PDF 15 for automated installation.
2. Creating a deployment script, i.e. choosing installation parameters:
 - computer names
 - time of installation
 - conditions for installation
3. Installing the software on the specified computers using the installation parameters specified in the script.

Example: Using SCCM to deploy ABBYY FineReader PDF 15

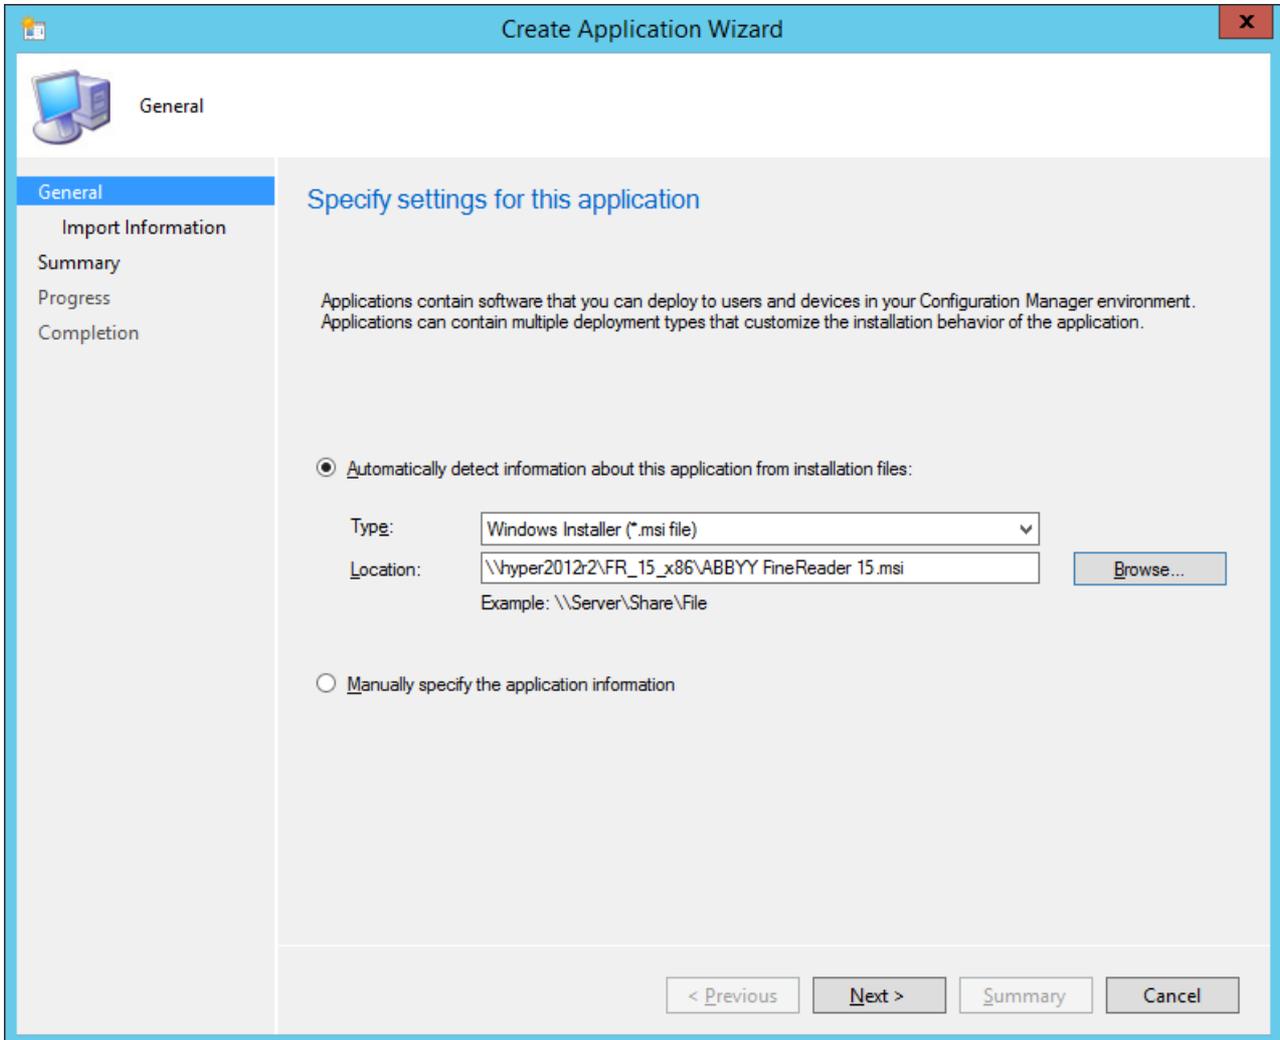

This example illustrates the deployment process on Microsoft Windows Server 2012.

1. Create an administrative installation point (see [Administrative installation with License Server and License Manager](#)^[10]) or a multi-user installation point (see [Deploying a multi-user distribution package with per-seat licenses and automatic activation](#)^[15]).
2. Start the **SCCM Administrator Console** and select the **Software Library** section.
3. Select the **Applications** item in the **Application Management** group.
4. Right-click the **Applications** item and click **Create Application** on the shortcut menu.

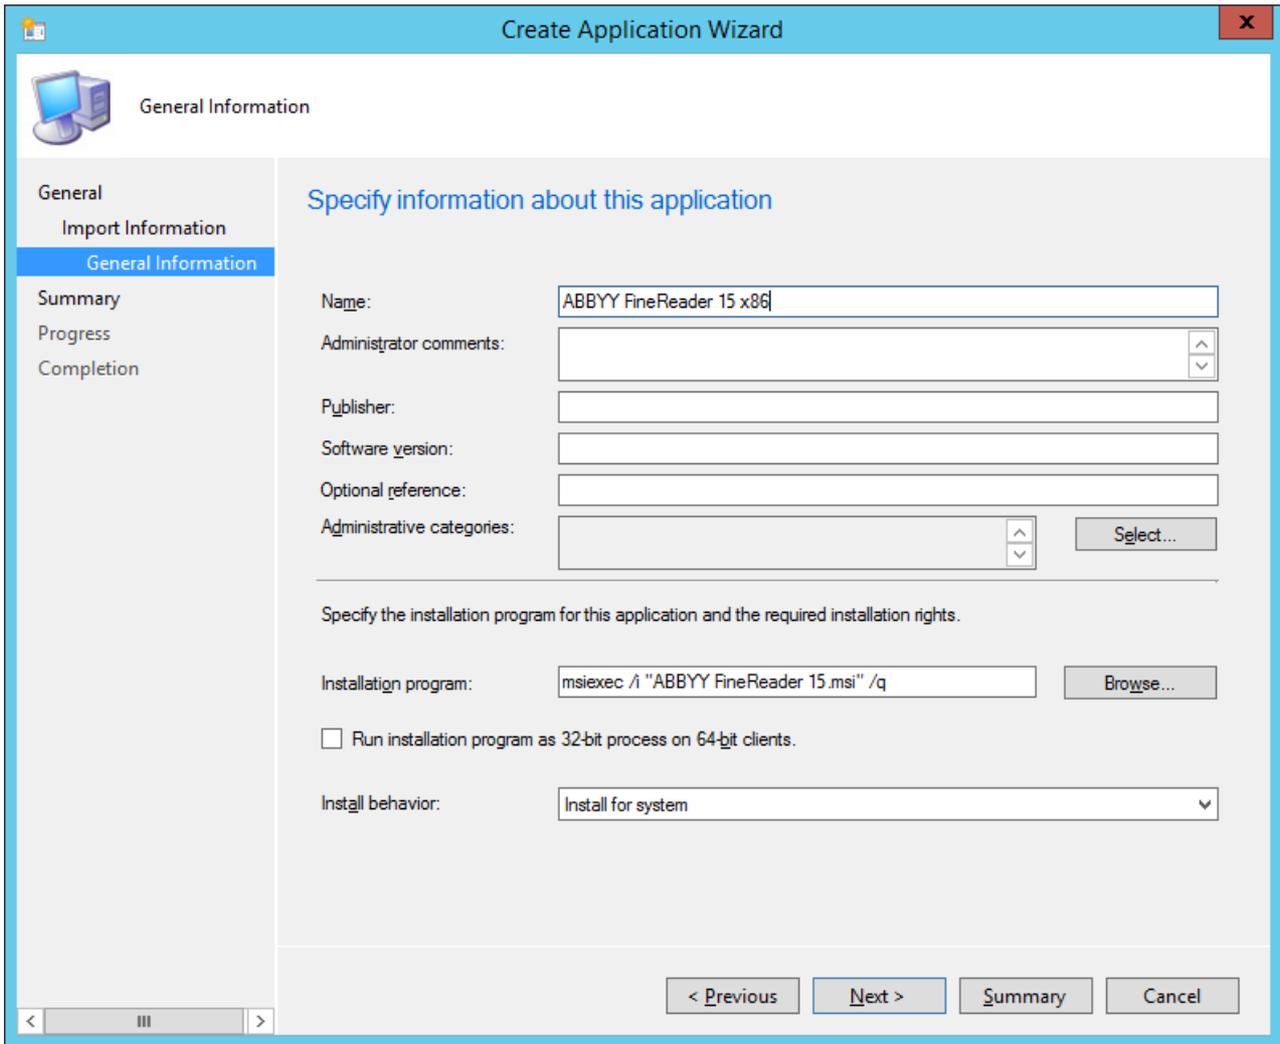

5. In the **Create Application Wizard** dialog box, select **Automatically Detect information about this application from installation files**. Select **Windows Installer (*.msi file)** from the **Type** drop-down list. Specify the path to the administrative installation point in the **Location** box and click **Next**.

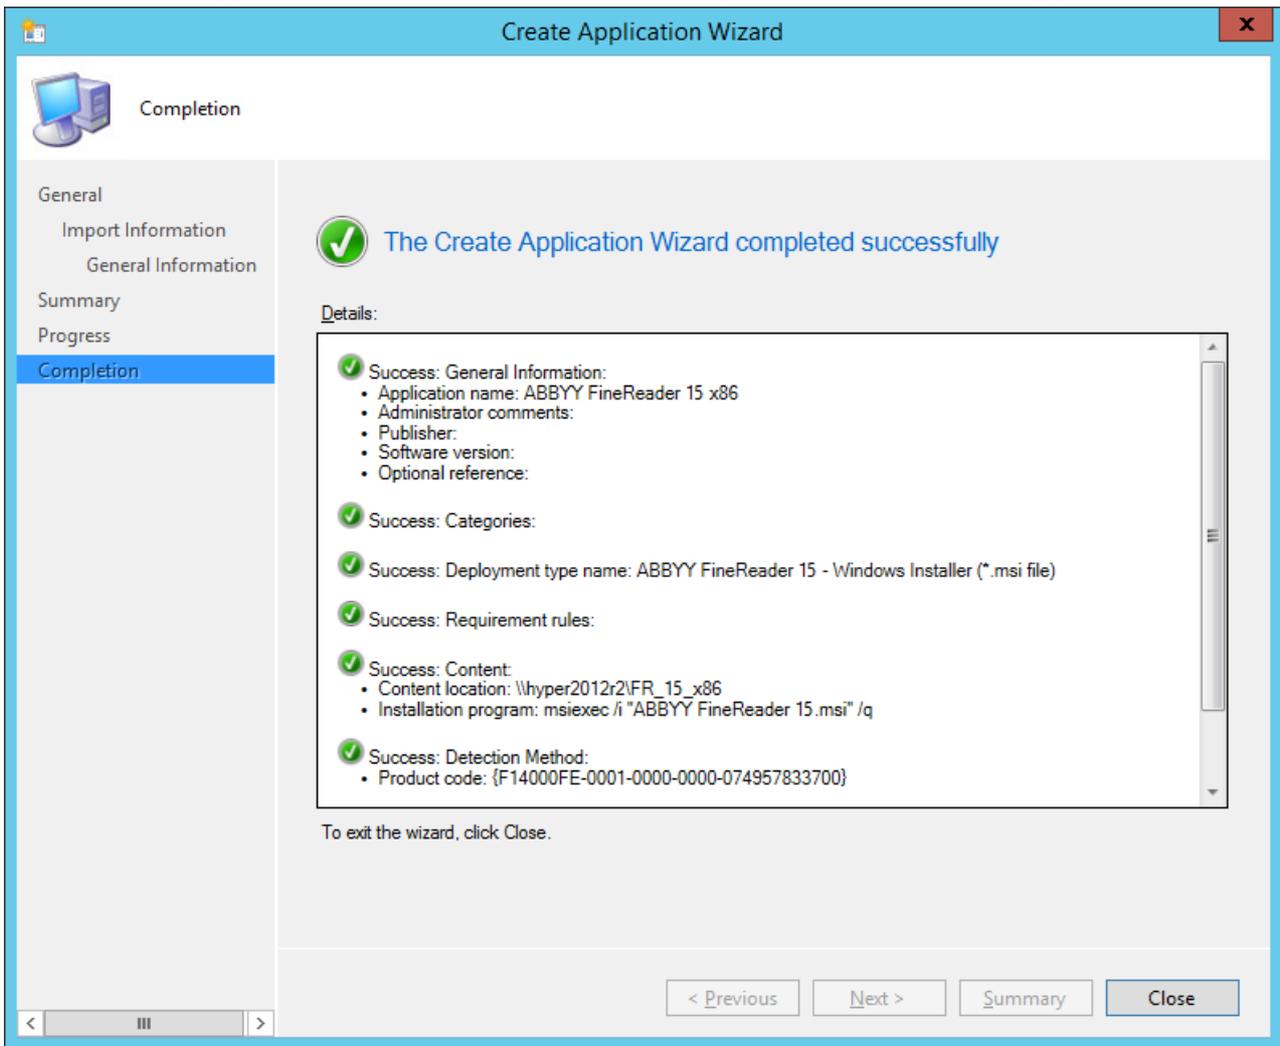

Note. The 32-bit version of ABBYY FineReader PDF 15 cannot be installed on a 64-bit system. The same is true for the 64-bit version on a 32-bit system.

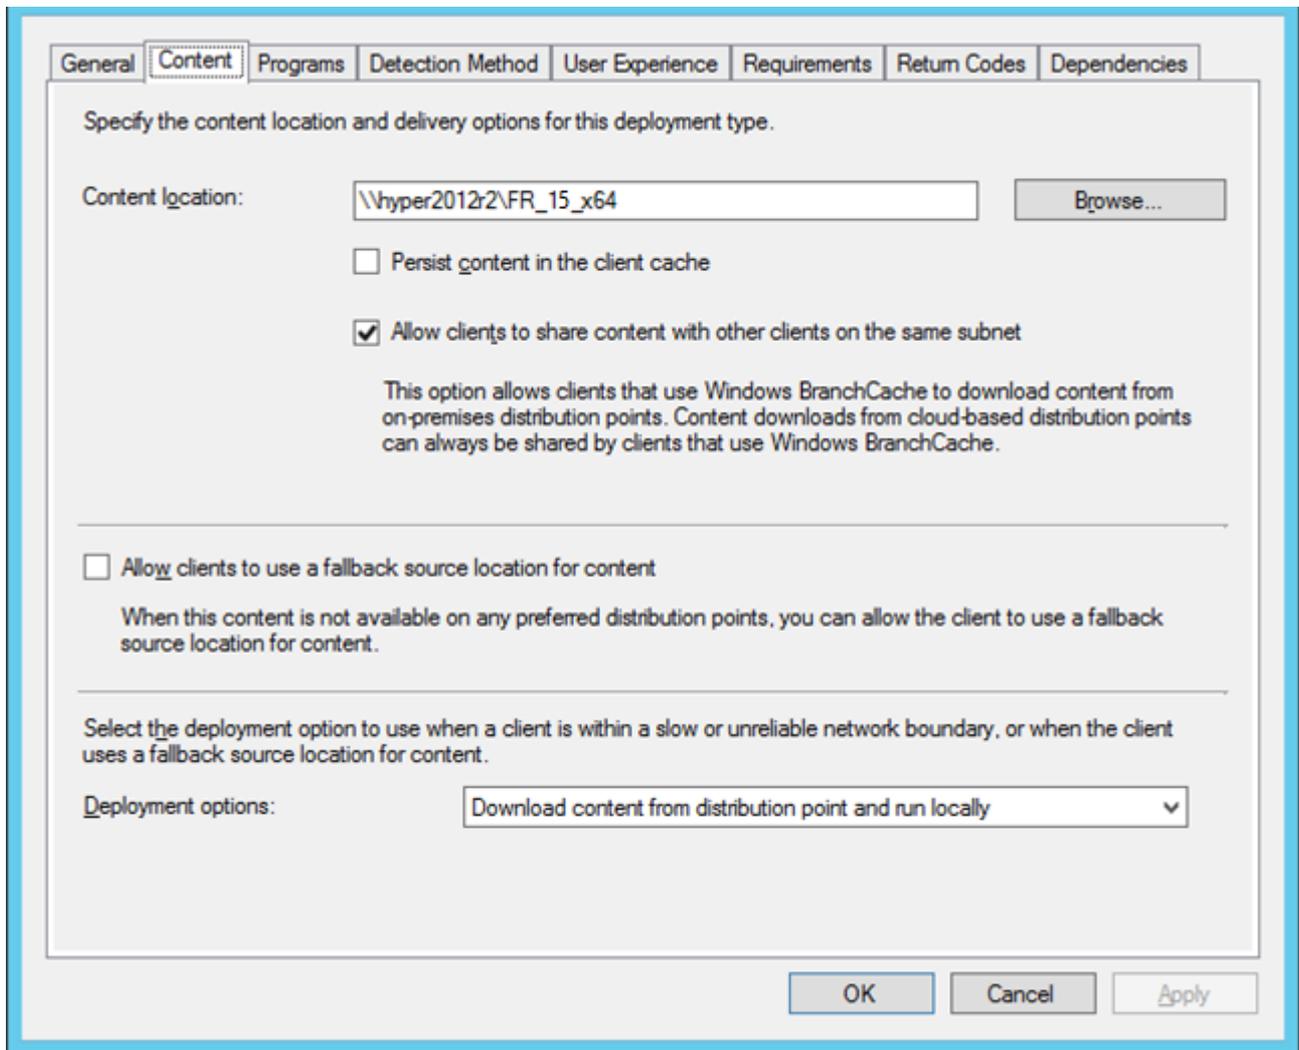

6. Specify any required information about ABBYY FineReader PDF 15. Do not make any changes in the **Installation Program** field. Click **Next**.

7. Check that the application has been created successfully and close the Create Application Wizard.

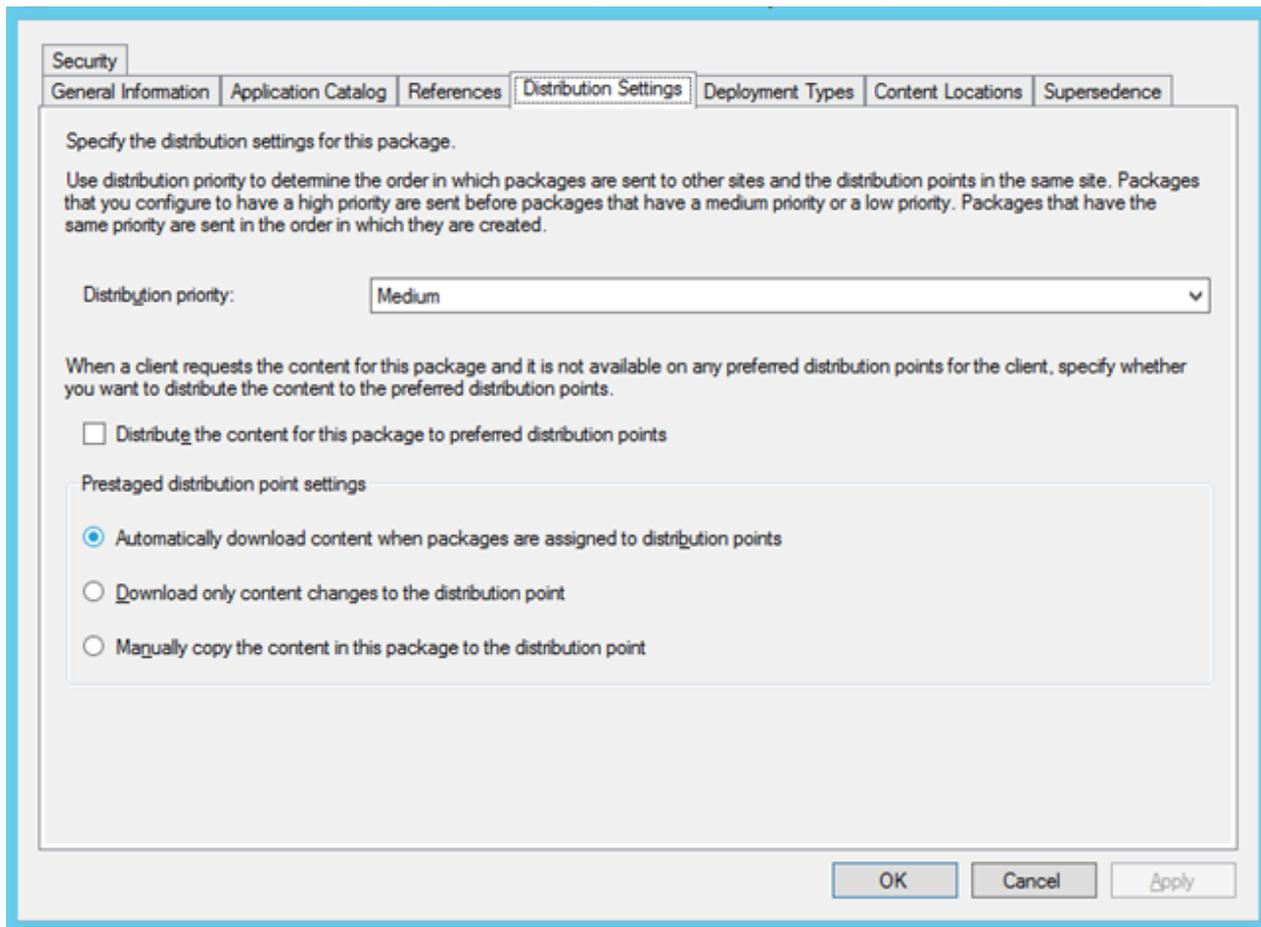

8. To automatically upload installation files to workstations:

- a. Right-click the application you created and click **Properties** on the shortcut menu.

- b. In the dialog box that opens, select the **Distribution Settings** tab and enable the **Automatically download content when packages are assigned to distribution points** option.

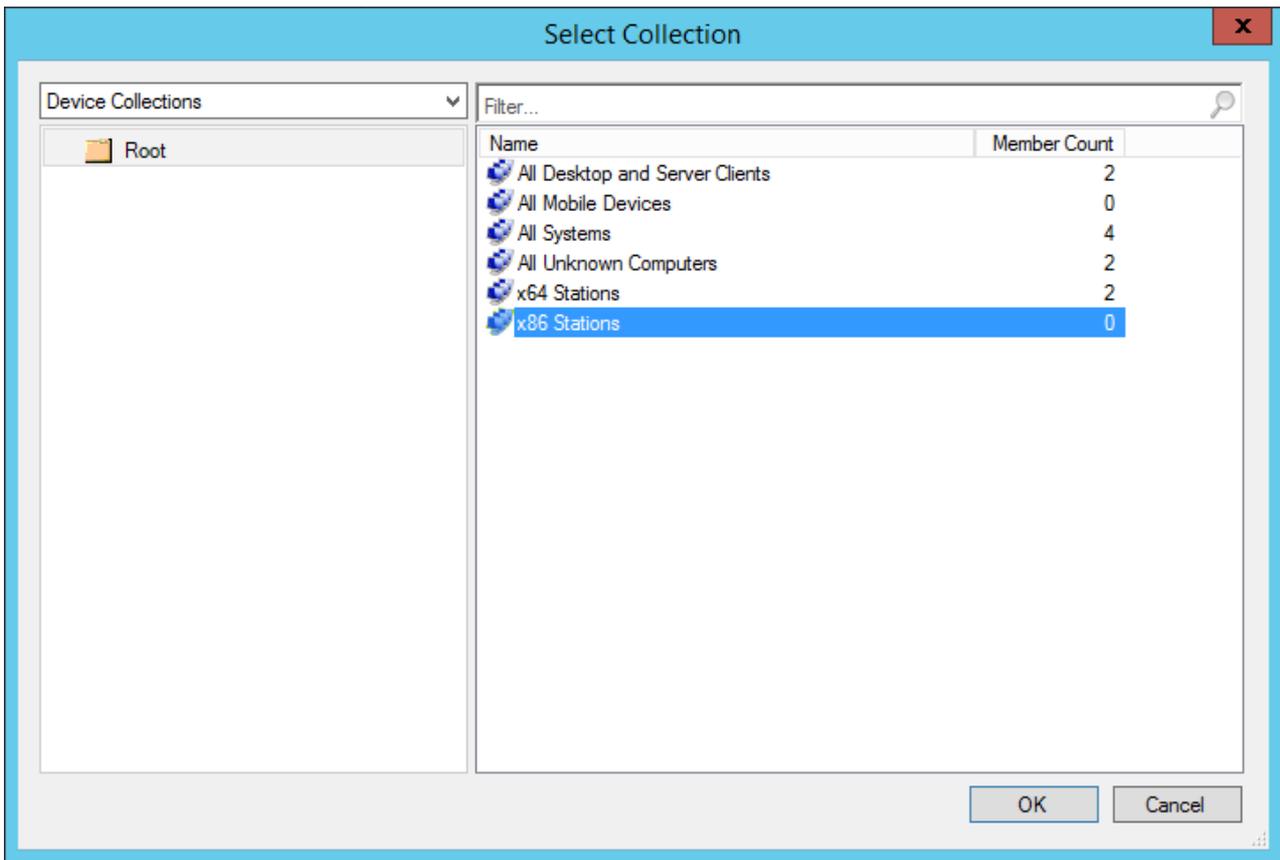

9. **Recommended settings:**

On the **Deployment Types** tab, select the ABBYY FineReader 15 Windows Installer and click **Edit**. In the properties dialog box, select the **Content** tab and set **Deployment options** to **Download content from distribution point and run locally**.

- 10. To deploy the application to workstations, right-click it and click **Deploy** on the shortcut menu. Select the desired **Device Collection** in **Collection**.

Note: User Collection installations are not supported.

11. Complete the rest of the deployment process as usual.

Installing ABBYY FineReader PDF 15 on a Terminal Server

Installation

ABBYY FineReader PDF 15 deployment was tested on Citrix Workspace App 1808 and later and Windows Server 2008 R2 and later with Windows Remote Desktop Services 7.0 (setup was performed using Windows RemoteApp and Citrix Workspace App). Both of these solutions can be used with any version of ABBYY FineReader PDF 15.

ABBYY FineReader PDF 15 does not support application streaming.

For **Concurrent** and **Remote User** licenses:

1. Create an administrative installation point.

The License Server and the License Manager can be installed on any computer in the local area network.

Important! A license server should be deployed on a machine that is accessible on all local machines running ABBYY FineReader PDF 15 at all times.

Note. The License Server can be installed on the terminal server.

See [Administrative installation with License Server and License Manager](#)^[10] for details.

2. Launch the License Manager.
3. Add all your licenses in the License Manager.
4. Install ABBYY FineReader PDF 15 from the administrative installation folder onto the terminal server.

ABBYY FineReader will be installed on the terminal server as if it was a workstation. Users will be able to connect to the server and use FineReader via a client.

Note. If ABBYY Screenshot Reader is installed on a terminal server and accessed via Windows RemoteApp or Citrix Workspace App, users will only be able to make screenshots in applications that are running on the terminal server.

Concurrent and Remote User license specifications

The number of concurrent connections will be limited by license parameters.

Note. If a user starts ABBYY Hot Folder or another bundled application without starting FineReader, a **Concurrent/Remote User** license will still be allocated to the user. The above does not apply to ABBYY Screenshot Reader, as it does not need a **Concurrent/Remote User** license to be launched.

Terminal server system requirements

ABBYY FineReader PDF 15 was tested with the following terminal server configurations:

1. A computer running under Microsoft Windows Server 2019, 2016, 2012 R2, 2008 R2 (Remote Desktop, RemoteApp and Remote Desktop Web Access)
2. Citrix Workspace App 1808

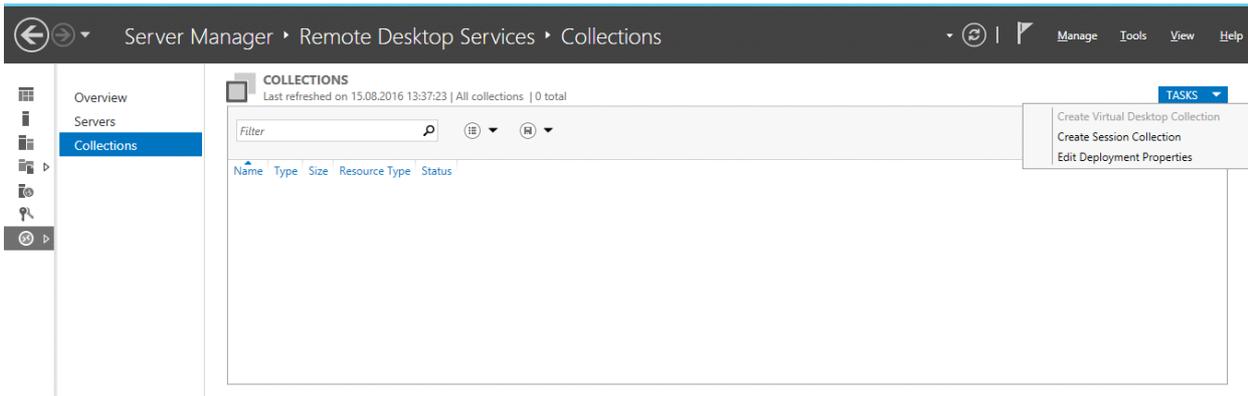

Setting Up Windows RemoteApp

ABBYY FineReader PDF 15 can be deployed using RemoteApp. The instructions below explain how to set up RemoteApp on Microsoft Windows Server 2012 R2.

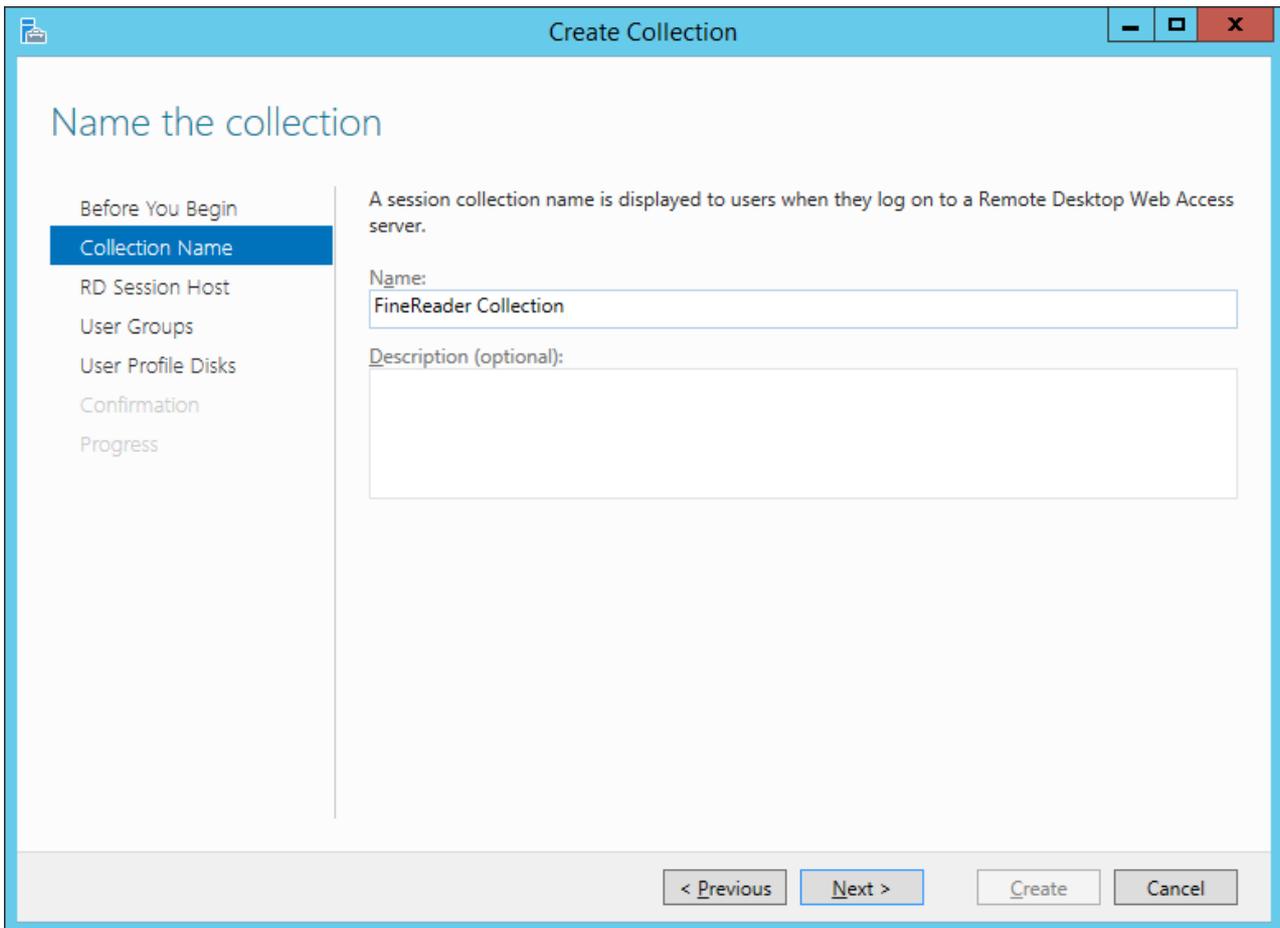

Install ABBYY FineReader PDF 15 on the server.

Create a session collection:

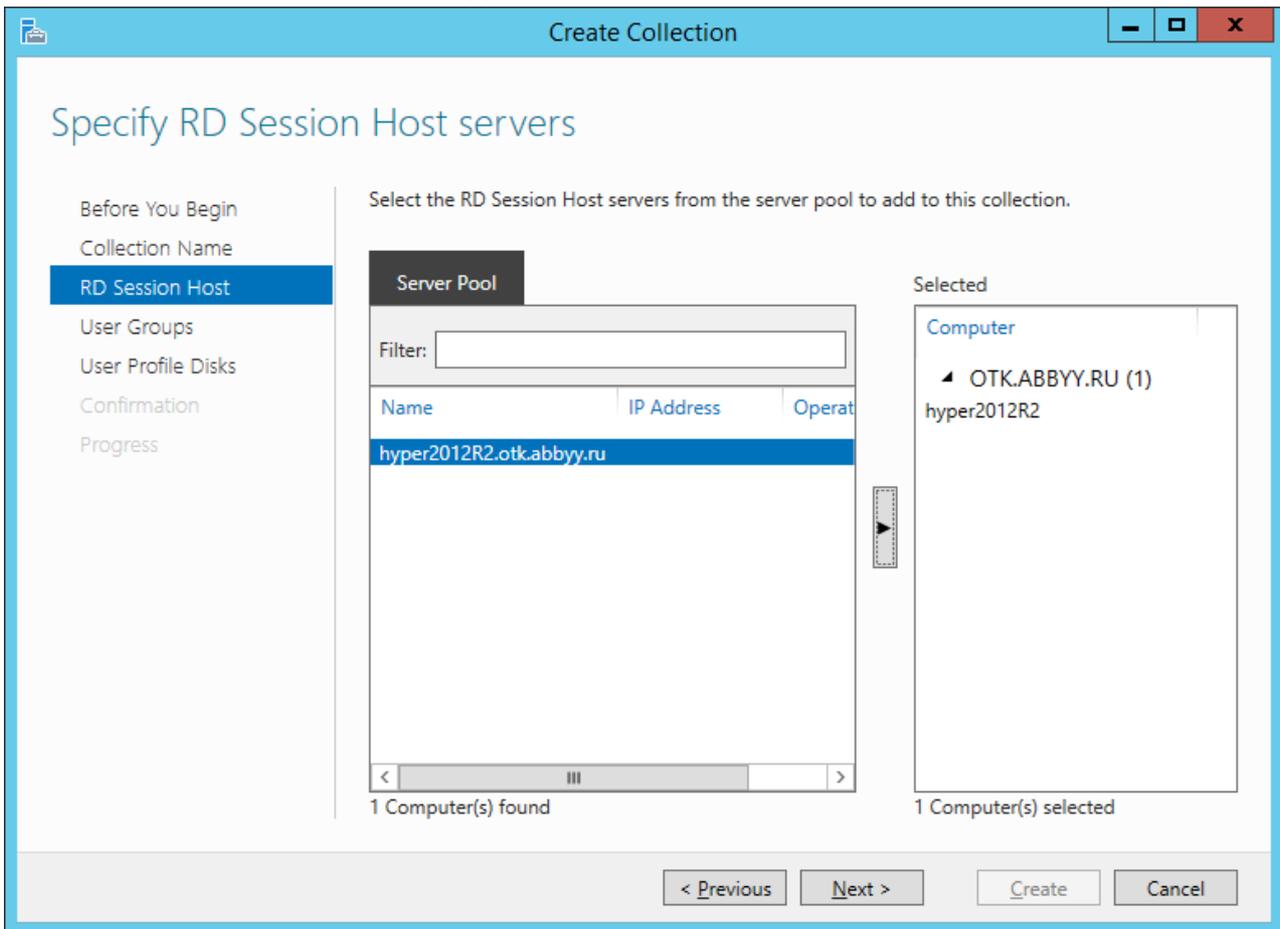

1. Open the **Server Manager** and click **Remote Desktop Services > Collections**.
2. Click **TASKS>Create Session Collection**.

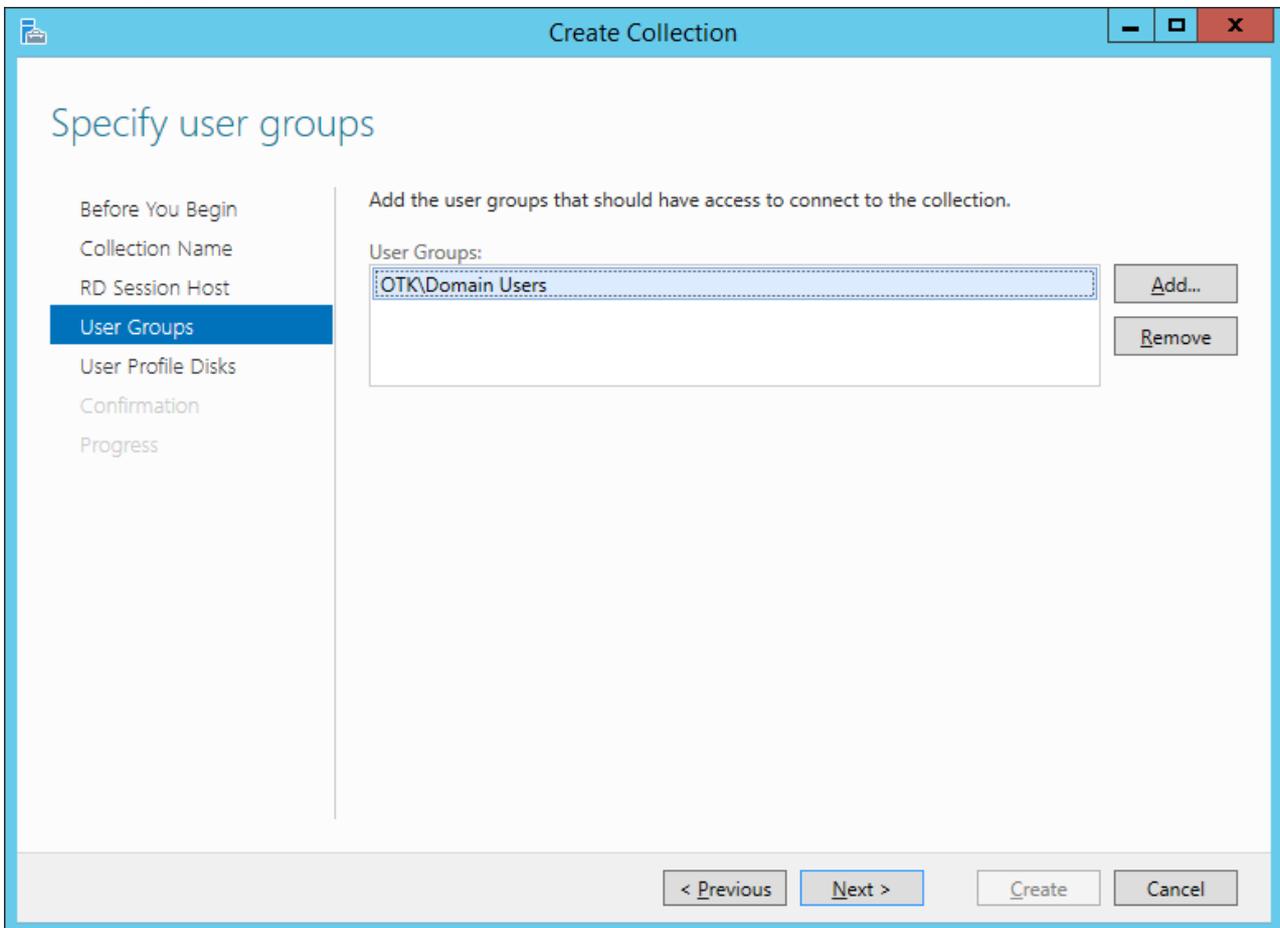

3. Specify the name of the collection.

4. Select the servers that will run the applications.

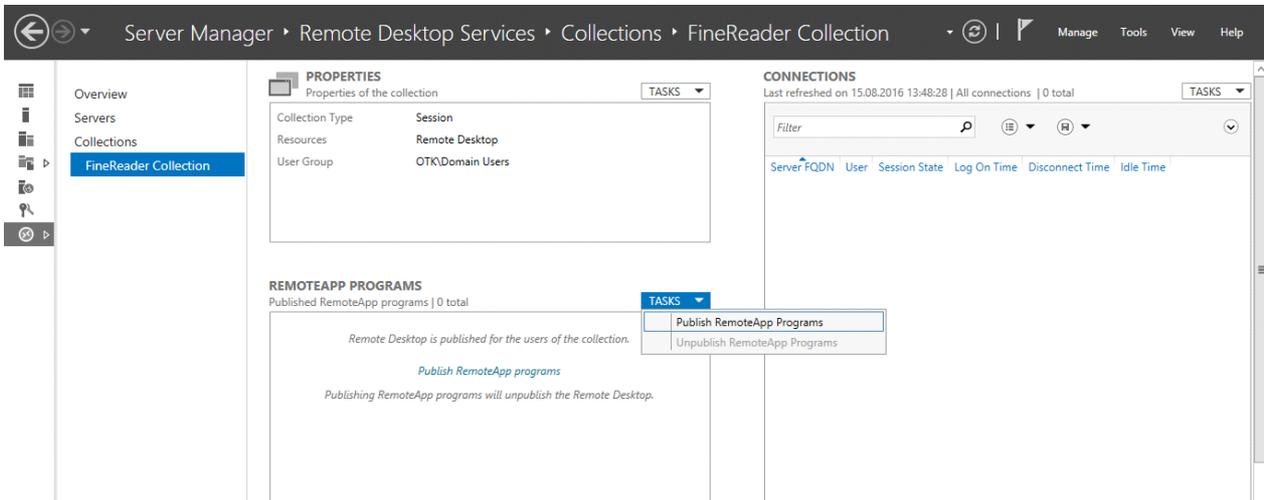

5. Select the groups that will have access to the applications.

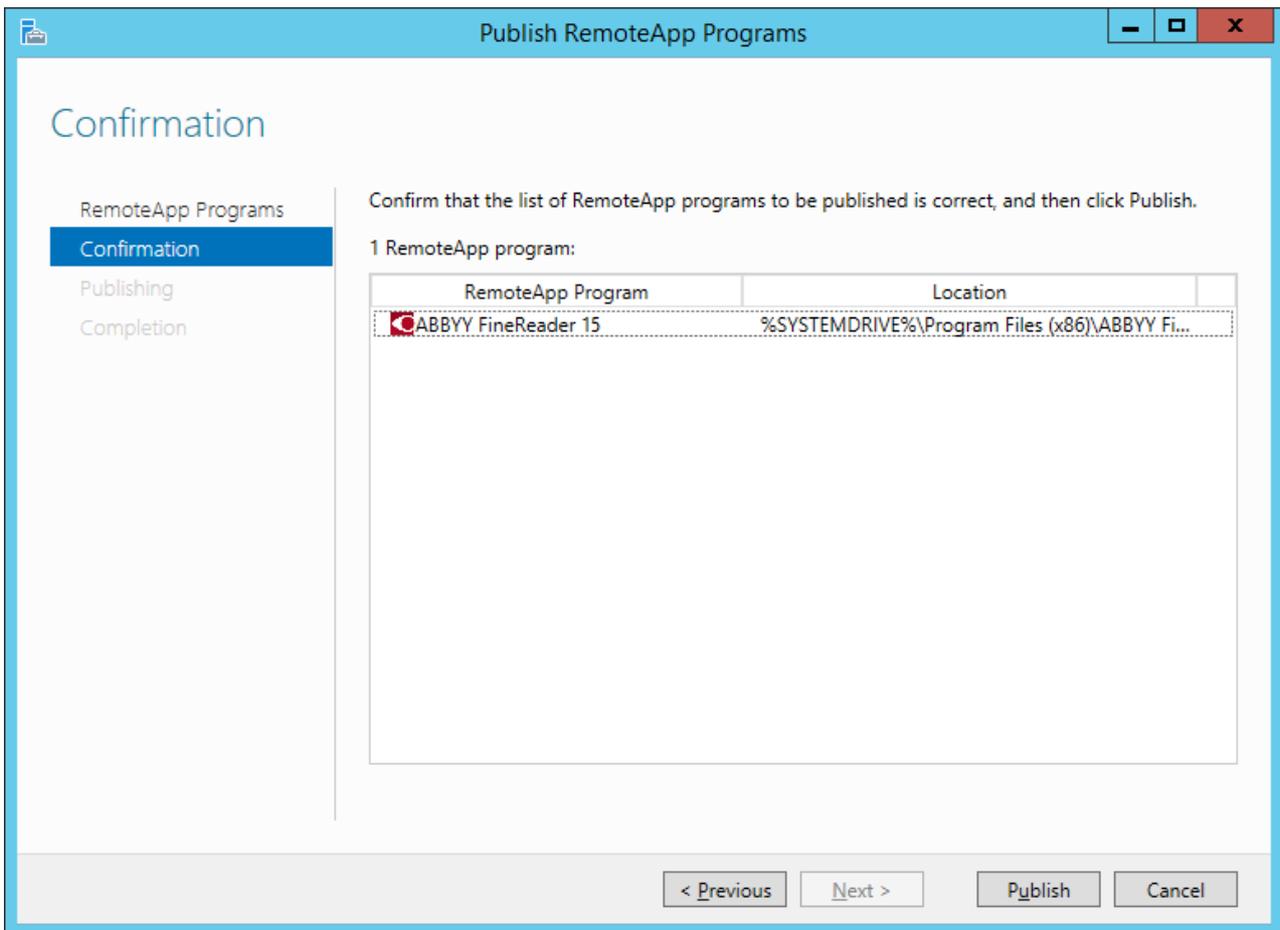

6. Specify whether you would like to add a **User Profile Disc**.
7. Click **Create**.

Add ABBYY FineReader PDF 15 to the collection:

1. Open the **Server Manager** and click **Remote Desktop Services>Collection>[name of collection]**.
2. Click **TASKS>Publish RemoteApp Programs**

3. Select ABBYY FineReader PDF 15 and click **Next**.

4. Click **Publish**.

Setting up Citrix Workspace App

When deploying ABBYY FineReader PDF 15 using Citrix Workspace App, use the **Installed application accessed from a server** scenario.

To deploy ABBYY FineReader PDF 15:

1. Install FineReader on all servers in the Delivery Group of the Citrix farm*.
2. Create a Licensing Server and add a sufficient number of licenses.

Note. If a user starts ABBYY Hot Folder or another bundled application without starting FineReader, a **Concurrent/Remote User** license will still be allocated to the user. The above does not apply to ABBYY Screenshot Reader, as it does not need a **Concurrent/Remote User** license to be launched.

* A farm is several Citrix servers that are grouped together to enable centralized administration, load balancing and fault tolerance.

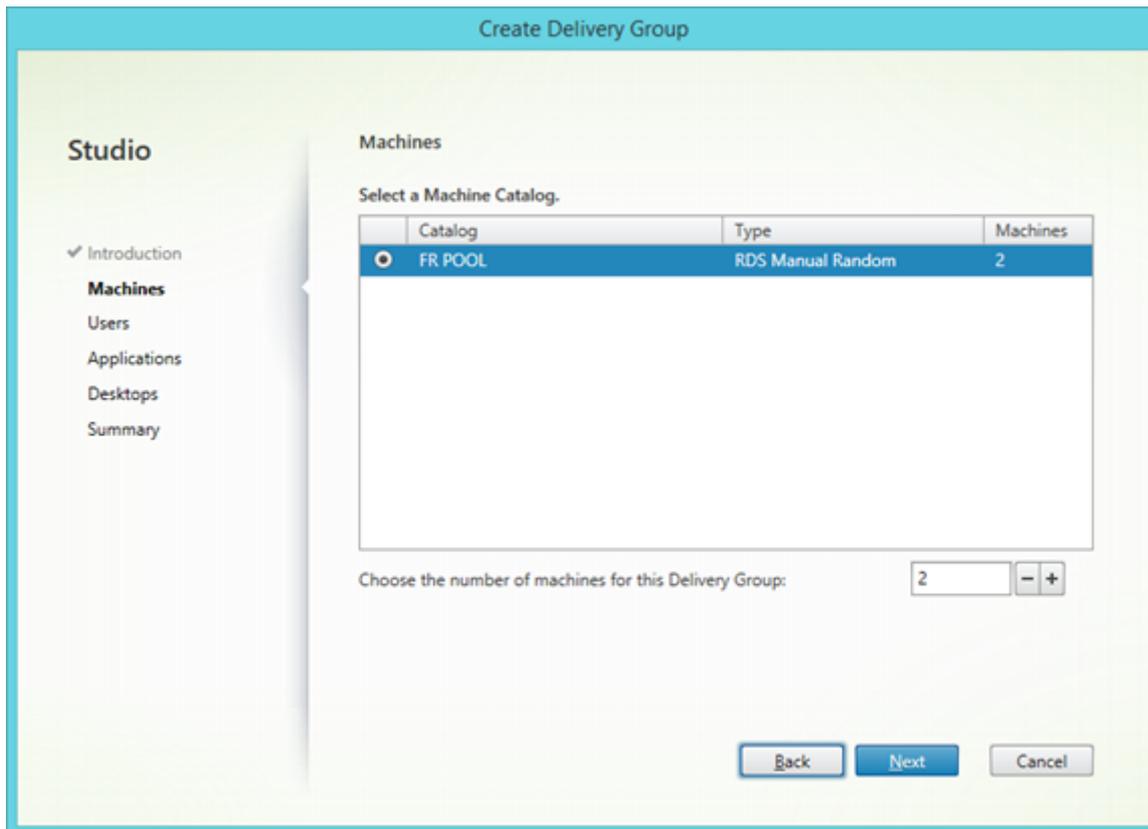

Example: setting up Citrix Workspace App 1808

1. Open Citrix Studio.
2. Select the farm where you want to deploy ABBYY FineReader PDF 15.
3. Create a Delivery Group for FineReader or add FineReader to an existing group.

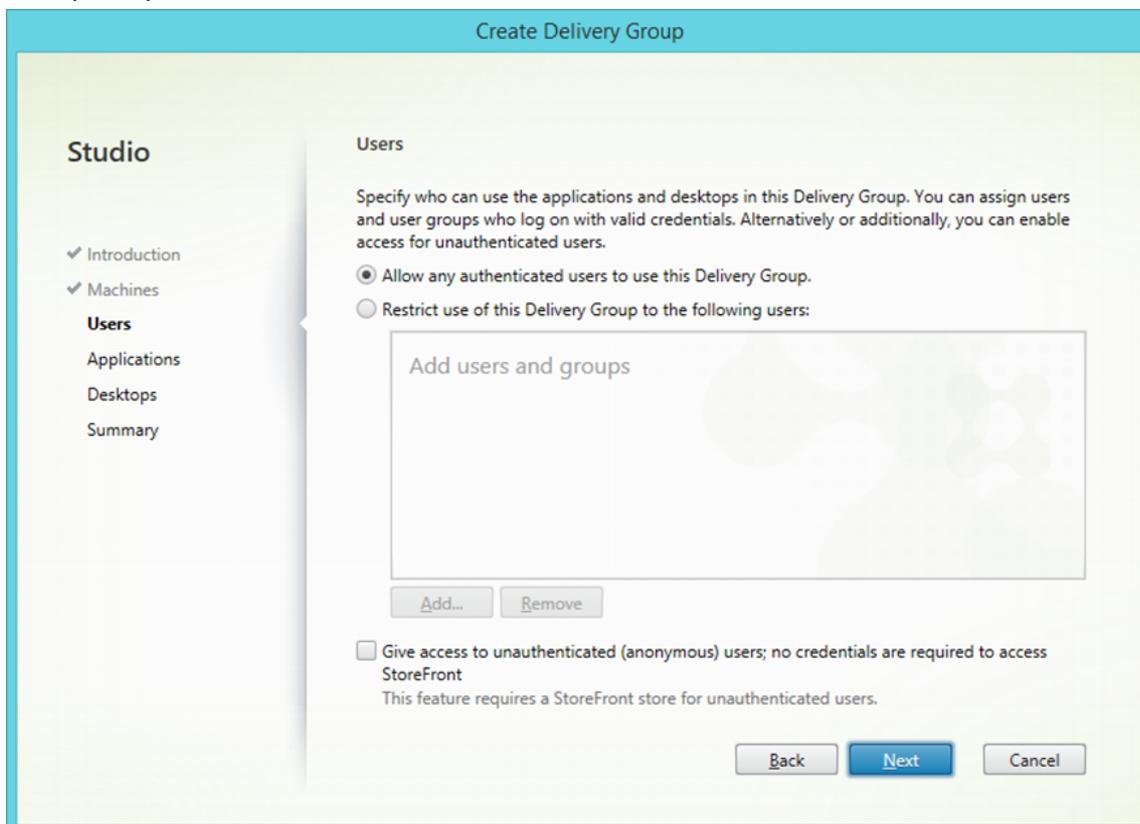

To create a new delivery group:

1. Click **Delivery Groups > Create Delivery group**.

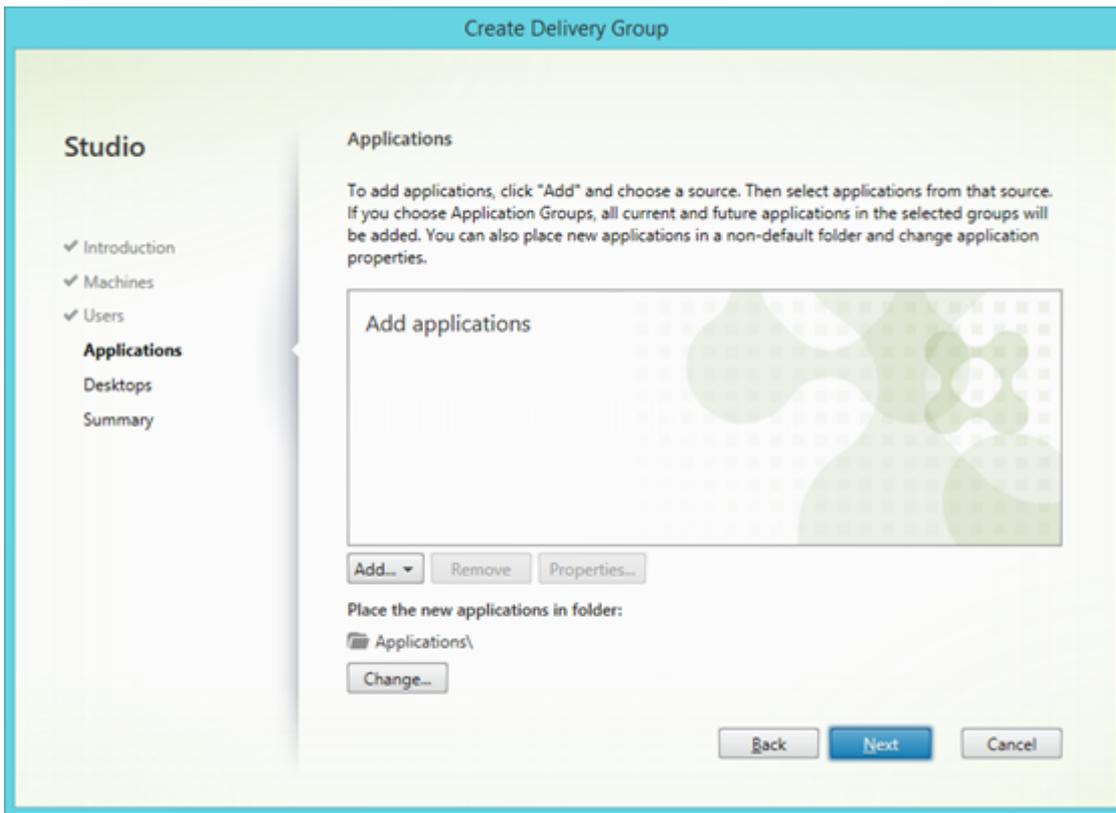

2. On the **Machines** step, select a Machine Catalog from the list and specify the number of servers you want to use.

3. On the **Users** step, specify which users will have access to the Delivery Group or limit the Delivery Group to specific users.

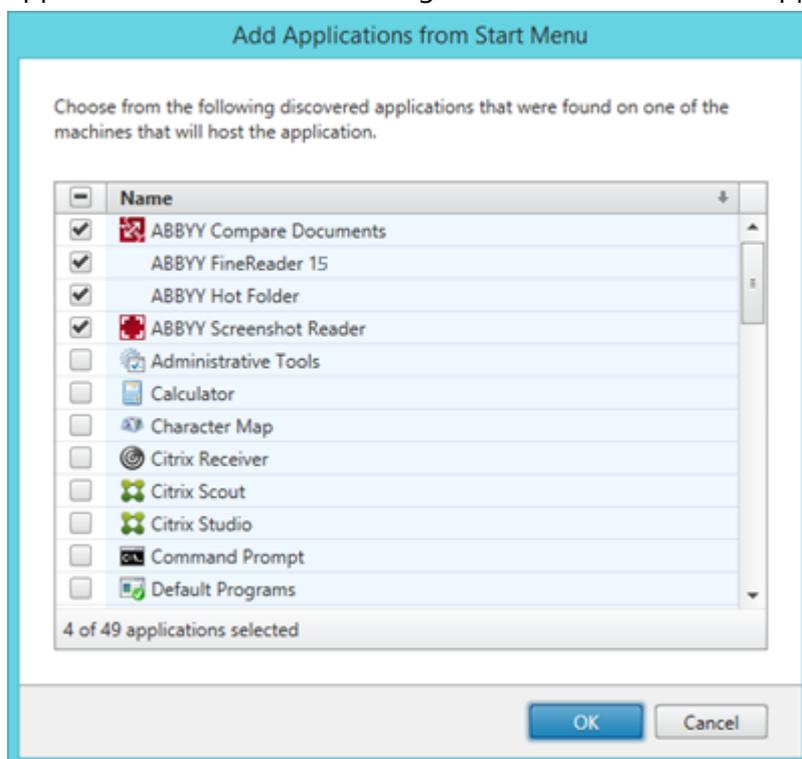

4. On the **Applications** step, click **Add...** and select the applications that can be started in the Delivery Group:

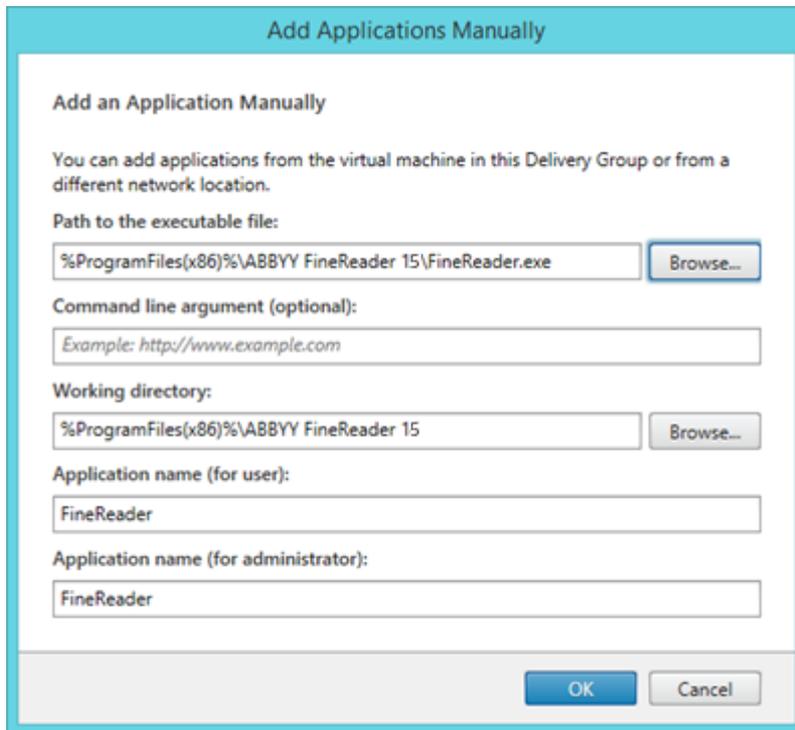

4.1. **From start menu...**

Select ABBYY FineReader PDF 15 from the list. If you want users to have access to bundled applications without first starting FineReader, select these applications. Click **OK**.

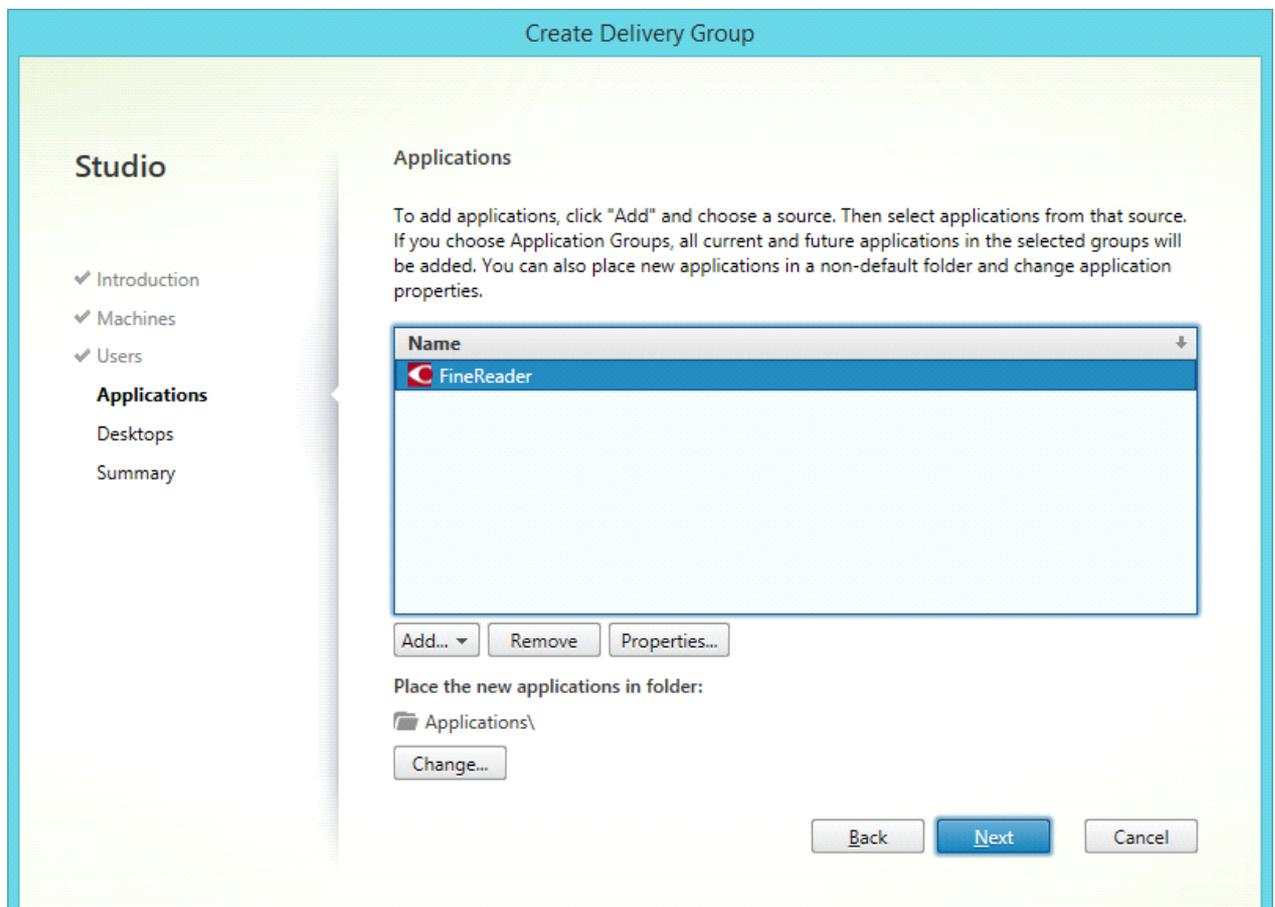

4.2. Manually...

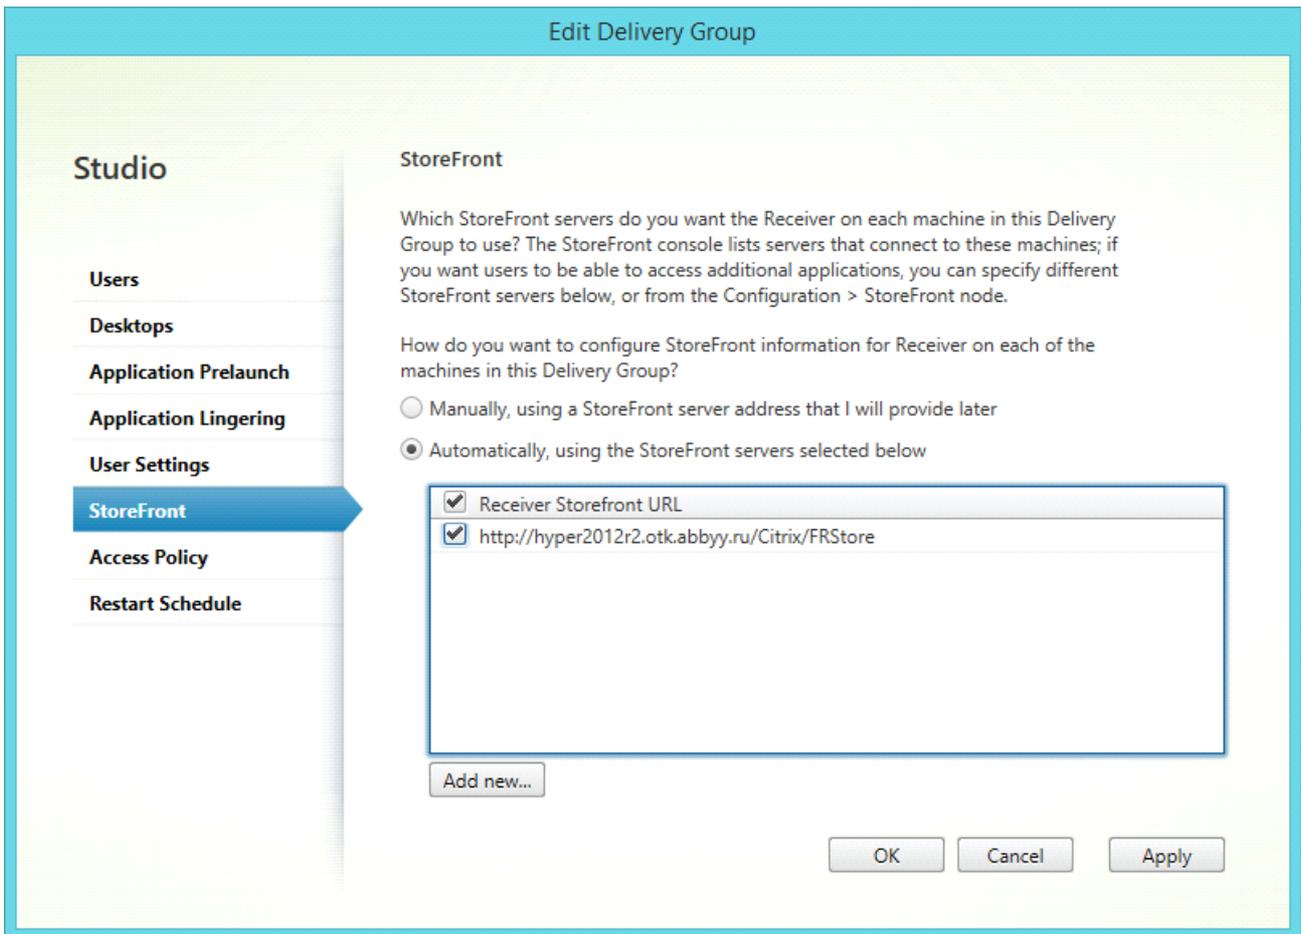

If several application directories are available on the selected servers, select the directory with ABBYY FineReader PDF 15 in the **Working directory** box. Under **Path to the executable file**, specify the path to FineReader.exe, then specify an application name for users and one for administrators. Click **OK**.

4.3. Add any applications you want to appear in the same Delivery Group as ABBYY FineReader PDF 15 and click **Next**.

- On the **Desktops** step, add the desktops that will be provided by the Delivery Group. If you do not want to provide access to desktops, skip this step.
- On the **Summary** step, specify a name for the Delivery Group under **Delivery Group name** and a description under **Delivery Group description, used as label in Receiver (optional)**. Complete the Delivery Group creation process.
- Select the Delivery Group you just created and click **Edit Delivery Group**. In the dialog box that opens, select the **StoreFront** tab, enable the **Automatically, using the StoreFront servers selected below** option and specify the **StoreFront** servers of the Delivery Group.

To add ABBYY FineReader PDF 15 to an existing Delivery Group:

- Select the Delivery Group to which you want to add FineReader and click **Add Applications**.
- Add ABBYY FineReader PDF 15 in the same way as described in [step 4](#)⁴⁴ for a new Delivery Group.

Using a group policy to configure ABBYY FineReader PDF 15

The administrator can disable menu items and options that send or download data over the Internet. The administrator can also tweak the behavior of ABBYY FineReader PDF 15. The following options are available:

Enable 'ABBYY Website' menu item – Displays the **Help > ABBYY Website** menu item

Enable 'Check for Updates' menu item – Displays the **Help > Check for Updates** menu item

Enable 'Send Feedback' menu item – Displays the **Help > Send Feedback** menu item

Enable Usage Statistics – Allows the program to send anonymous data about ABBYY FineReader PDF 15 settings and usage statistics to ABBYY for the purpose of the software improvement

Enable 'Activate...' menu item – Displays the **Help > Activate...** menu item

Enable 'Register...' menu item – Displays the **Help > Register...** menu item

Enable loading marketing tips from the ABBYY servers – Allows the download of tips and ABBYY marketing messages from the ABBYY servers

Automatically check for updates – Checks automatically for ABBYY FineReader PDF 15 updates

Accept EULA and Privacy Policy on behalf of all group users – Don't ask users to accept the EULA and the Privacy policy.

By using this group policy the administrator accepts the EULA and the Privacy Policy on behalf of all users in the group.

Attention: you will not be additionally asked to accept any changes made to the EULA and the Privacy Policy. It is the responsibility of the Group administrator to monitor all product updates for any such changes when installing them. By using the updated product, you accept the latest EULA and Privacy Policy versions. A Group administrator can revoke consent within 10 days after the installation of the latest updates by uninstalling them.

Prompt to make ABBYY FineReader 15 the default PDF application – Enables dialog prompts to make ABBYY FineReader PDF 15 the default PDF viewer.

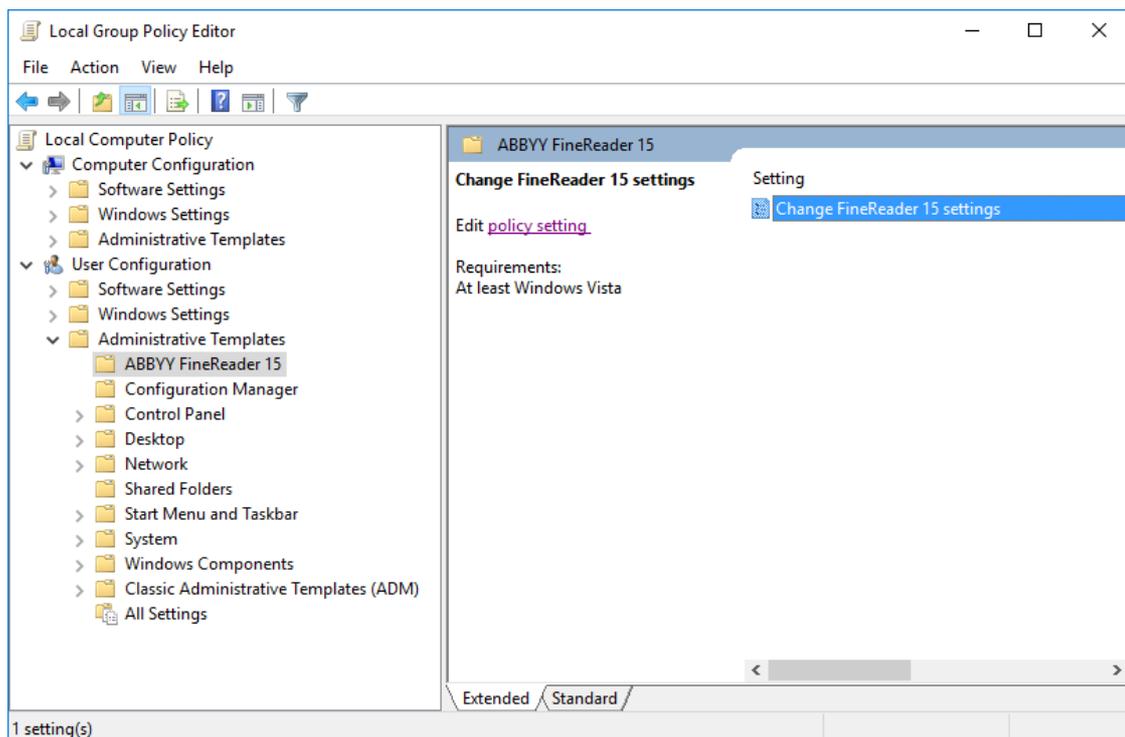

Max number of CPU cores: N – Sets a maximum number of processors that can be used by ABBYY FineReader PDF 15 (setting N=0 removes this restriction)

Period of inactivity (hrs) after which license will be lost: M – Vacates the **Concurrent / Remote User** license after M hours of user inactivity (setting M=0 disables this option)

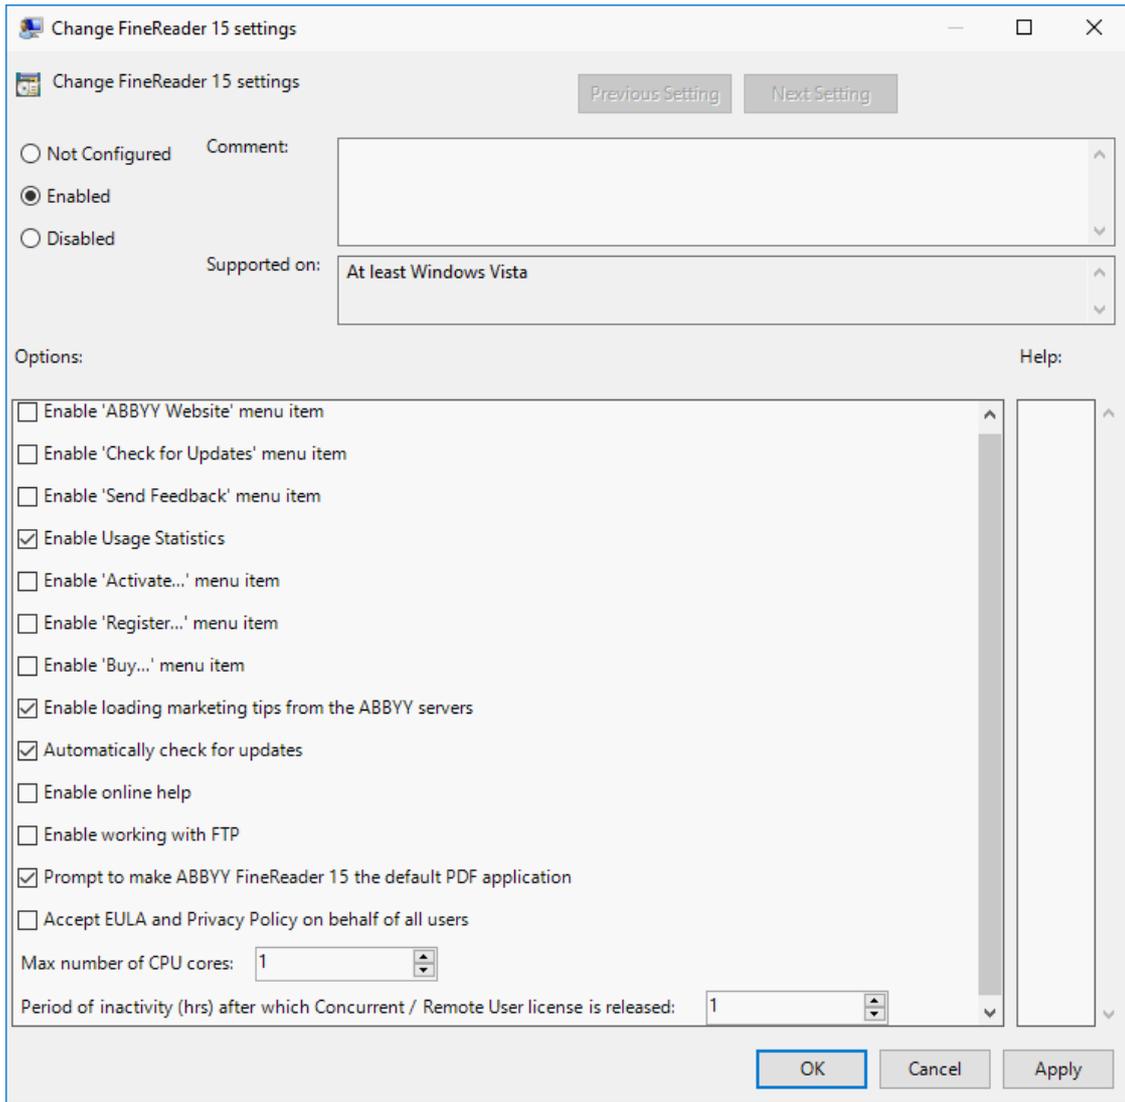

Note. In order to change the above parameters, download the [FineReader15.admx](#) and [FineReader15.adml](#) files.

Setting up ABBYY FineReader PDF 15 on a local machine

1. Download the [FineReader15.admx](#) and [FineReader15.adml](#) files.
2. Place the **FineReader.admx** file into the **%systemroot%\policyDefinitions** folder, and the **FineReader15.adml** file into the **%systemroot%\policyDefinitions\en-US** folder.
3. Open the **Run** dialog box (Win + R) and execute **gpedit.msc**.
This will open the **Local Group Policy Editor** window.
4. To edit your group policy, select **User Configuration > Administrative Templates > ABBYY FineReader PDF 15** and open the **Change FineReader 15 settings** policy.

5. Mark the appropriate parameters and click **OK**.

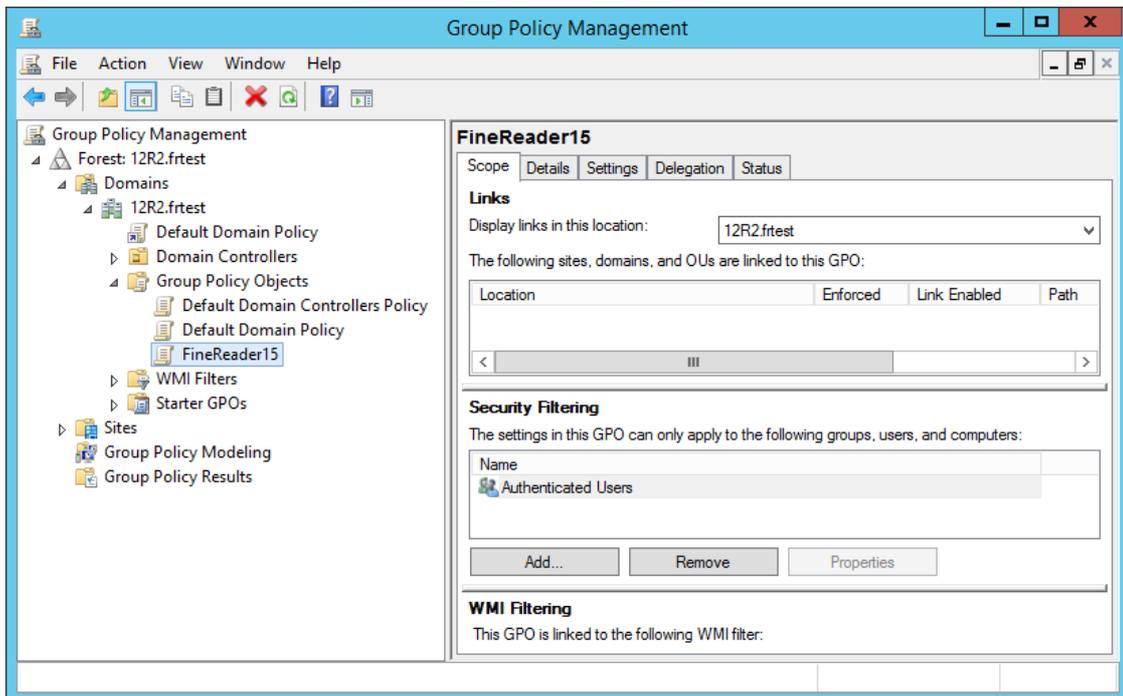

6. To save your changes, update your group policies and restart ABBYY FineReader PDF 15 on your workstation.

Note. Parameters set up using Group Policy are applied globally to all applications that are part of ABBYY FineReader PDF 15.

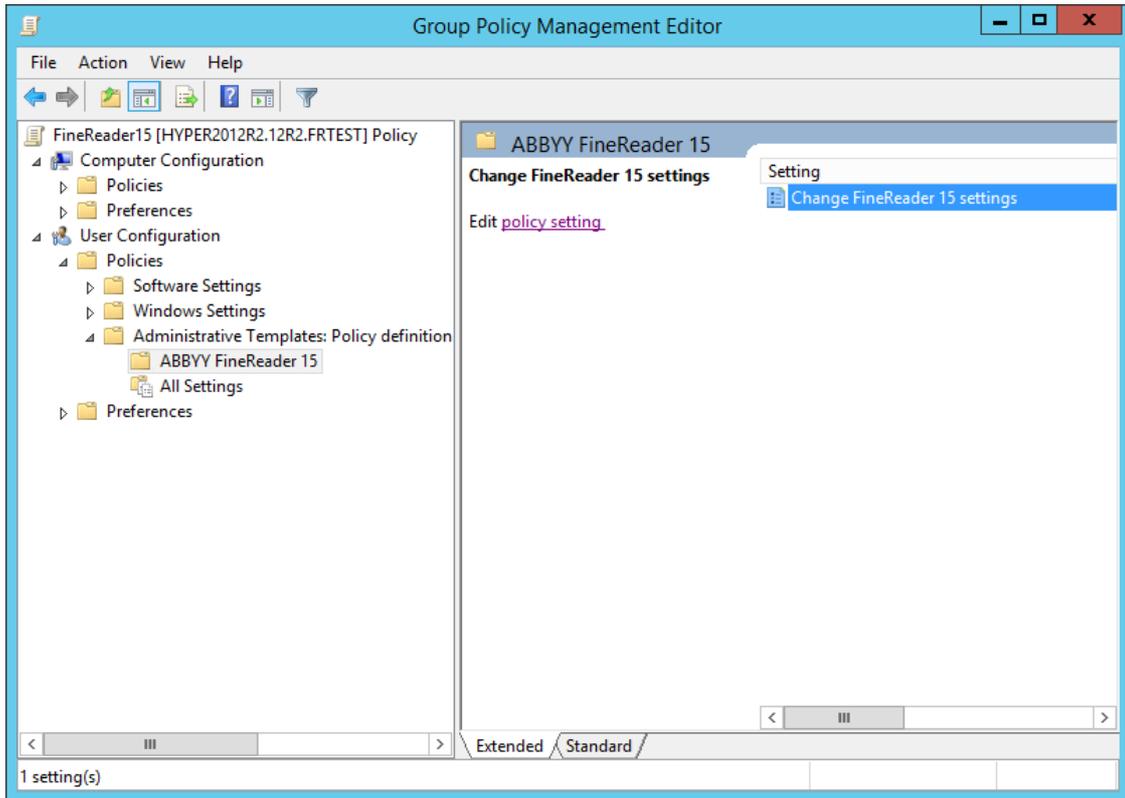

Setting up ABBYY FineReader PDF 15 on all machines in the domain simultaneously

1. Download the [FineReader15.admx](#) and [FineReader15.adml](#) files.
2. Place the **FineReader.admx** file into the **%systemroot%\sysvol\domain\policies\PolicyDefinitions** folder, and the **FineReader15.adml** file into the **%systemroot%\sysvol\domain\policies\PolicyDefinitions\en-us** folder.
3. Open the **Run** dialog box (Win + R) and execute **gpmc.msc**. This will open the **Group Policy Management** console.
4. Create a new group policy object. To do this, open the shortcut menu for the **Group Policy objects** node and select **New**.
5. Enter a name for your group policy and click **OK**.
6. Expand the **Group Policy objects** node.

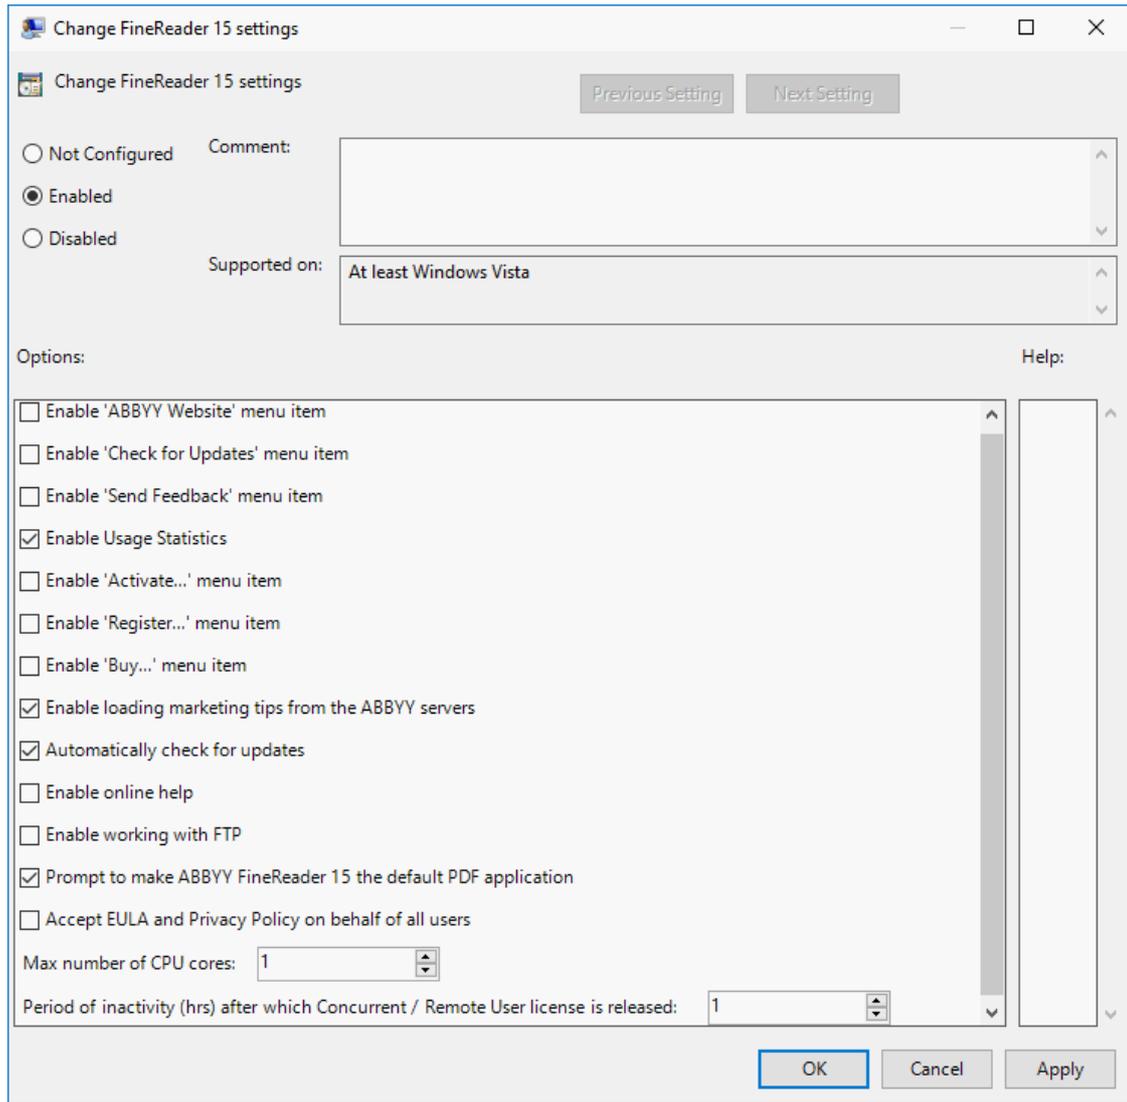

7. Open the shortcut menu for the group policy object created in step 4 and select **Edit**. This will open the **Group Policy Management Editor** window.

- To edit a group policy, select **User Configuration > Policies > Administrative Templates: Policy definitions (ADMX files retrieved from the central store) > ABBYY FineReader PDF 15** and open the **Change FineReader 15 settings** policy.

9. Mark the appropriate parameters and click **OK**.

10. To save your changes, update your server-side group policies and restart ABBYY FineReader PDF 15 on your workstation.

Note. Parameters set up using Group Policy are applied globally to all applications that are part of ABBYY FineReader PDF 15.

Installation updates

To update ABBYY FineReader PDF 15 on workstations, complete the following steps:

1. Download the installation files of the latest version of ABBYY FineReader PDF 15.
2. Install ABBYY FineReader PDF 15 on workstations without creating an administrative installation point. You can use any installation method. See [Installing ABBYY FineReader PDF 15 on Workstations](#)¹⁸.

Note. Uninstalling the previous version of ABBYY FineReader PDF 15 is not required for installing an update.

Frequently Asked Questions

Can I clone an operating system that has ABBYY FineReader PDF 15 installed?

Yes, you can deploy ABBYY FineReader PDF 15 by cloning your Microsoft Windows 7/8/10 operating system. After cloning your OS, you will need to activate ABBYY FineReader PDF 15. An unactivated copy of ABBYY FineReader PDF 15 will not run or will run in trial mode, depending on your version of the product. Some versions of the product automatically activate themselves over the Internet without asking the user for confirmation. See [Creating a multi-user administrative installation point](#)¹⁷¹ for details.

Important!

1. Cloning is only possible if you have not yet run ABBYY FineReader PDF 15 on the cloned computer. Otherwise, you will need to repair ABBYY FineReader PDF 15 on that computer. See [How can I repair ABBYY FineReader PDF 15 on workstations](#)^{581?}
2. Once you have cloned your OS, you need to change its name and **Security Identifier (SID)**.
3. Trial versions of ABBYY FineReader PDF 15 can be cloned.

How can I change the network connection settings?

You can change the connection settings used for communication among the License Server, the License Manager, and the workstations.

1. Change the following parameters in the **NetworkLicenseServer.ini** file, which is located on the computer where the License Server is installed (**%programfiles%\Common Files\ABBYY\FineReader\15\Licensing**).

- Connection protocol

See [Setting up the connection protocol](#) ⁵⁷ for details.

- Connection port

See [Setting up the connection port](#) ⁵⁸ for details.

For example:

```
[Licensing]
```

```
NetworkServer=yes
```

```
#ConnectionProtocolType=TCP\IP
```

```
#ConnectionEndpointName=81
```

Note: Make sure that your firewall does not prevent **%programfiles%\Common Files\ABBYY\FineReader\15\Licensing\NetworkLicenseServer.exe** from accessing the specified port.

2. Make similar changes to the **Licensing.ini** file located in **%programfiles%\Common Files\ABBYY\FineReader\15\Licensing**.
3. Copy the **Licensing.ini** file to the License Manager folder on all the computers where the License Manager is installed (by default, the License Manager is installed to **%programfiles%\ABBYY FineReader PDF 15 License Server**).

Important! For the changes to take effect, you must restart the ABBYY FineReader PDF 15 Licensing Service.

4. Restart the ABBYY FineReader PDF 15 Licensing Service. After restarting, make sure that the License Manager is working properly.
5. Create an [administrative installation point](#) ¹³.

6. Copy the updated **Licensing.ini** file located in **%programfiles%\Common Files\ABBYY\FineReader\15\Licensing** to the administrative installation point that you have just created.

For example:

D:\Temp\Adm15\ABBYY FineReader PDF 15

Adm15 is the administrative installation folder.

ABBYY FineReader PDF 15 is the subfolder containing the FineReader.exe executable file.

The Licensing.ini file should be copied to the ABBYY FineReader PDF 15 subfolder.

7. Make sure that the appropriate server-side port is open.
8. Reinstall ABBYY FineReader PDF 15 on the workstations with the help of the administrative installation point created in step 5.

Setting up the connection protocol

To set up the server protocol, use the **ConnectionProtocolType** parameter in the **NetworkLicenseServer.ini** file located in **%programfiles%\Common Files\ABBYY\FineReader\15\Licensing**.

[Licensing]

ConnectionProtocolType=[TCP\IP | NAMED PIPES]

This parameter allows you to either specify a network protocol (TCP\IP) or use the Named Pipes protocol. This information is used:

- by the License Manager to access the License Server
- by the workstations to access the License Server when ABBYY FineReader PDF 15 is being installed or repaired on them

By default, the **Named Pipes** protocol is used.

Setting up the connection port

To set up the connection port, use the **ConnectionEndpointName** parameter in the **NetworkLicenseServer.ini** file located in **%programfiles%\Common Files\ABBYY\FineReader\15\Licensing**.

[Licensing]

ConnectionEndpointName=[port number for TCP\IP | channel name for Named Pipes]

The parameter should have the following format: **ConnectionEndpointName=\pipe**

This parameter allows you to specify the port for the connection protocol or the name of the channel for Named Pipes. This information is used:

- by the License Manager to access the License Server
- by the workstations to access the License Server when installing or repairing ABBYY FineReader PDF 15 on the workstations

Note: Avoid changing the name of the named pipe for the Named Pipes protocol that is set by the program when installing the License Server. By default, Named Pipes uses the following name: **\pipe\ABBYY\FineReader Windows 15.0 Licensing Service**.

How can I repair ABBYY FineReader PDF 15 on the workstations?

An access to the installation distribution may be required for the program recovery.

Repairing ABBYY FineReader PDF 15 in interactive mode

On the workstation, do the following:

1. Open the Control Panel by clicking Control Panel on the Start menu and select Programs and Features.
2. In the list of installed programs, select ABBYY FineReader PDF 15 and click Change.
3. In the Program Maintenance dialog box that opens, select Repair and click Next.
4. Follow the instructions of the wizard.

Repairing ABBYY FineReader PDF 15 via the command line

Run the following command on the workstation:

msiexec /f {Product Code},

and depending on installation type and Windows architecture, specify one of the following instead of **{Product Code}**:

	x86	x64
--	------------	------------

Base/Full installation	{F15000FE-0001-0000-0000-074957833700}	{F15000FE-0001-6400-0000-074957833700}
SLE installation	{F15000BE-0001-0000-0000-074957833700}	{F15000BE-0001-6400-0000-074957833700}

E.g.:

msiexec /f {F15000FE-0001-0000-0000-074957833700}

How can I rename the computer hosting the License Server or move the License Server to another computer?

If you deployed ABBYY FineReader in the local area network and then changed the name of the computer hosting the License Server or an unexpected error occurred on the License Server computer, do the following:

1. Remove the License Server from the computer on which it was installed.

Note: If this computer is inaccessible, go to step 2.

1.1. Open the Control Panel by clicking **Control Panel** on the **Start** menu and select **Programs and Features**.

1.2. In the list of installed programs, select **ABBYY FineReader PDF 15 License Server** and click **Remove**.

2. Install the License Server on a different computer, for example on \\NewServer.

3. On all the computers where the License Manager is installed, either edit or add the parameter **[Licensing]**

NetworkServerName= <COMPUTER NAME> to the

%Program Files%\ABBYY FineReader PDF 15 License Server\LicenseManager.ini file.

This parameter allows you to specify the name of the server to be accessed by the License Manager.

For example, specify

[Licensing]

NetworkServerName=MyComputerName

Important! For the changes to take effect, you must restart the ABBYY FineReader PDF 15 Licensing Service.

4. Add and activate your licenses in ABBYY FineReader PDF 15 License Manager. For details, see the ABBYY FineReader License Manager help file.

Note. If you are using Per-Seat licenses, we recommend restoring the status of your licenses before adding them in the License Manager.

5. In the administrative installation point, open the ABBYY FineReader PDF 15 folder and create a **Licensing.ini** file there.

The path to the administrative installation folder was specified earlier when creating the administrative installation point. For details, see [Creating an administrative installation point](#)¹³.

6. In the **Licensing.ini** file you have created, add the **NetworkServerName** parameter to the **[Licensing]** section. This parameter specifies the name of the server, for example

[Licensing]

NetworkServerName=MyComputerName

7. Reinstall ABBYY FineReader PDF 15 on a workstation.

For details, see [Installing ABBYY FineReader PDF 15 on Workstations](#)¹⁸.

8. A file named **<COMPUTER NAME>.ABBYY.LicServer** will be created. **<COMPUTER NAME>** is the value of the **NetworkServerName** parameter. For example: **MyComputerName.ABBYY.LicServer**. Copy the **<COMPUTER NAME>.ABBYY.LicServer** file onto the other workstations. You can find the file in **%programdata%\ABBYY\FineReader\15\Licenses in Windows 7** and later Windows operating systems.

Technical Support

If you have any questions about how to install and use ABBYY FineReader PDF 15 to which you cannot find answers in this System Administrator's Guide, please contact the ABBYY technical support service or ABBYY partners. For contact information, visit <https://www.abbyy.com/support/>.

LibJPEG

1. We don't promise that this software works. (But if you find any bugs, please let us know!)
2. You can use this software for whatever you want. You don't have to pay us.
3. You may not pretend that you wrote this software. If you use it in a program, you must acknowledge somewhere in your documentation that you've used the IJG code.

In legalese:

The authors make NO WARRANTY or representation, either express or implied, with respect to this software, its quality, accuracy, merchantability, or fitness for a particular purpose. This software is provided "AS IS", and you, its user, assume the entire risk as to its quality and accuracy.

This software is copyright (C) 1991-1998, Thomas G. Lane.

All Rights Reserved except as specified below.

Permission is hereby granted to use, copy, modify, and distribute this software (or portions thereof) for any purpose, without fee, subject to these conditions:

- (1) If any part of the source code for this software is distributed, then this README file must be included, with this copyright and no-warranty notice unaltered; and any additions, deletions, or changes to the original files must be clearly indicated in accompanying documentation.

(2) If only executable code is distributed, then the accompanying documentation must state that "this software is based in part on the work of the Independent JPEG Group".

(3) Permission for use of this software is granted only if the user accepts full responsibility for any undesirable consequences; the authors accept NO LIABILITY for damages of any kind.

These conditions apply to any software derived from or based on the IJG code, not just to the unmodified library. If you use our work, you ought to acknowledge us.

Permission is NOT granted for the use of any IJG author's name or company name in advertising or publicity relating to this software or products derived from it. This software may be referred to only as "the Independent JPEG Group's software".

We specifically permit and encourage the use of this software as the basis of commercial products, provided that all warranty or liability claims are assumed by the product vendor.

For the purposes of this copyright and license, "Contributing Authors"
is defined as the following set of individuals:

- Andreas Dilger
- Dave Martindale
- Guy Eric Schalnat
- Paul Schmidt
- Tim Wegner

The PNG Reference Library is supplied "AS IS". The Contributing Authors
and Group 42, Inc. disclaim all warranties, expressed or implied,
including, without limitation, the warranties of merchantability and of
fitness for any purpose. The Contributing Authors and Group 42, Inc.
assume no liability for direct, indirect, incidental, special, exemplary,
or consequential damages, which may result from the use of the PNG
Reference Library, even if advised of the possibility of such damage.
Permission is hereby granted to use, copy, modify, and distribute this

source code, or portions hereof, for any purpose, without fee, subject to the following restrictions:

1. The origin of this source code must not be misrepresented.
2. Altered versions must be plainly marked as such and must not be misrepresented as being the original source.
3. This Copyright notice may not be removed or altered from any source or altered source distribution.

The Contributing Authors and Group 42, Inc. specifically permit, without fee, and encourage the use of this source code as a component to supporting the PNG file format in commercial products. If you use this source code in a product, acknowledgment is not required but would be appreciated.

Libpng is OSI Certified Open Source Software. OSI Certified Open Source is a certification mark of the Open Source Initiative.

Copyright (c) 2018 Intel Corporation.

The technologies listed above are distributed subject to conditions of the following license:

Use and Redistribution. You may use and redistribute the software (the "Software"), without modification, provided the following conditions are met:

* Redistributions must reproduce the above copyright notice and the following terms of use in the Software and in the documentation and/or other materials provided with the distribution.

* Neither the name of Intel nor the names of its suppliers may be used to endorse or promote products derived from this Software without specific prior written permission.

* No reverse engineering, decompilation, or disassembly of this Software is permitted.

Limited patent license. Intel grants you a world-wide, royalty-free, non-exclusive license under patents it now or hereafter owns or controls to make, have made, use, import, offer to sell and sell ("Utilize") this Software, but solely to the extent that any such patent is necessary to Utilize the Software alone. The patent license shall not apply to any combinations which include this software. No hardware per se is licensed hereunder.

Third party and other Intel programs. "Third Party Programs" are the files listed in the "third-party-programs.txt" text file that is included with the Software and may include Intel programs under separate license terms. Third Party Programs, even if included with the distribution of the Materials, are governed by separate license terms and those license terms solely govern your use of those programs.

DISCLAIMER. THIS SOFTWARE IS PROVIDED "AS IS" AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT ARE DISCLAIMED. THIS SOFTWARE IS NOT INTENDED FOR USE IN SYSTEMS OR APPLICATIONS WHERE FAILURE OF THE SOFTWARE MAY CAUSE PERSONAL INJURY OR DEATH AND YOU AGREE THAT YOU ARE FULLY RESPONSIBLE FOR ANY CLAIMS, COSTS, DAMAGES, EXPENSES, AND ATTORNEYS' FEES ARISING OUT OF ANY SUCH USE, EVEN IF ANY CLAIM ALLEGES THAT INTEL WAS NEGLIGENT REGARDING THE DESIGN OR MANUFACTURE OF THE MATERIALS.

LIMITATION OF LIABILITY. IN NO EVENT WILL INTEL BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE. YOU AGREE TO INDEMNIFY AND HOLD INTEL HARMLESS AGAINST ANY CLAIMS AND EXPENSES RESULTING FROM YOUR USE OR UNAUTHORIZED USE OF THE SOFTWARE.

No support. Intel may make changes to the Software, at any time without notice, and is not obligated to support, update or provide training for the Software.

Termination. Intel may terminate your right to use the Software in the event of your breach of this Agreement and you fail to cure the breach within a reasonable period of time.

Feedback. Should you provide Intel with comments, modifications, corrections, enhancements or other input ("Feedback") related to the Software Intel will be free to use, disclose, reproduce, license or otherwise distribute or exploit the Feedback in its sole discretion without any obligations or restrictions of any kind, including without limitation, intellectual property rights or licensing obligations.

Compliance with laws. You agree to comply with all relevant laws and regulations governing your use, transfer, import or export (or prohibition thereof) of the Software.

Governing law. All disputes will be governed by the laws of the United States of America and the State of Delaware without reference to conflict of law principles and subject to the exclusive jurisdiction of the state or federal courts sitting in the State of Delaware, and each party agrees that it submits to the

personal jurisdiction and venue of those courts and waives any objections. The United Nations Convention on Contracts for the International Sale of Goods (1980) is specifically excluded and will not apply to the Software.

Mozilla Public License

Version 2.0

1. Definitions

1.1. “Contributor”

means each individual or legal entity that creates, contributes to the creation of, or owns Covered Software.

1.2. “Contributor Version”

means the combination of the Contributions of others (if any) used by a Contributor and that particular Contributor’s Contribution.

1.3. “Contribution”

means Covered Software of a particular Contributor.

1.4. “Covered Software”

means Source Code Form to which the initial Contributor has attached the notice in Exhibit A, the Executable Form of such Source Code Form, and Modifications of such Source Code Form, in each case including portions thereof.

1.5. “Incompatible With Secondary Licenses”

means

a.that the initial Contributor has attached the notice described in Exhibit B to the Covered Software; or

b.that the Covered Software was made available under the terms of version 1.1 or earlier of the License, but not also under the terms of a Secondary License.

1.6. “Executable Form”

means any form of the work other than Source Code Form.

1.7. "Larger Work"

means a work that combines Covered Software with other material, in a separate file or files, that is not Covered Software.

1.8. "License"

means this document.

1.9. "Licensable"

means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently, any and all of the rights conveyed by this License.

1.10. "Modifications"

means any of the following:

a.any file in Source Code Form that results from an addition to, deletion from, or modification of the contents of Covered Software; or

b.any new file in Source Code Form that contains any Covered Software.

1.11. "Patent Claims" of a Contributor

means any patent claim(s), including without limitation, method, process, and apparatus claims, in any patent Licensable by such Contributor that would be infringed, but for the grant of the License, by the making, using, selling, offering for sale, having made, import, or transfer of either its Contributions or its Contributor Version.

1.12. "Secondary License"

means either the GNU General Public License, Version 2.0, the GNU Lesser General Public License, Version 2.1, the GNU Affero General Public License, Version 3.0, or any later versions of those licenses.

1.13. "Source Code Form"

means the form of the work preferred for making modifications.

1.14. "You" (or "Your")

means an individual or a legal entity exercising rights under this License. For legal entities, "You" includes any entity that controls, is controlled by, or is under common control with You. For purposes of this definition, "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.

2. License Grants and Conditions

2.1. Grants

Each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license:

a.under intellectual property rights (other than patent or trademark) Licensable by such Contributor to use, reproduce, make available, modify, display, perform, distribute, and otherwise exploit its Contributions, either on an unmodified basis, with Modifications, or as part of a Larger Work; and

b. under Patent Claims of such Contributor to make, use, sell, offer for sale, have made, import, and otherwise transfer either its Contributions or its Contributor Version.

2.2. Effective Date

The licenses granted in Section 2.1 with respect to any Contribution become effective for each Contribution on the date the Contributor first distributes such Contribution.

2.3. Limitations on Grant Scope

The licenses granted in this Section 2 are the only rights granted under this License. No additional rights or licenses will be implied from the distribution or licensing of Covered Software under this License. Notwithstanding Section 2.1(b) above, no patent license is granted by a Contributor:

- a. for any code that a Contributor has removed from Covered Software; or
- b. for infringements caused by: (i) Your and any other third party's modifications of Covered Software, or (ii) the combination of its Contributions with other software (except as part of its Contributor Version); or
- c. under Patent Claims infringed by Covered Software in the absence of its Contributions.

This License does not grant any rights in the trademarks, service marks, or logos of any Contributor (except as may be necessary to comply with the notice requirements in Section 3.4).

2.4. Subsequent Licenses

No Contributor makes additional grants as a result of Your choice to distribute the Covered Software under a subsequent version of this License (see Section 10.2) or under the terms of a Secondary License (if permitted under the terms of Section 3.3).

2.5. Representation

Each Contributor represents that the Contributor believes its Contributions are its original creation(s) or it has sufficient rights to grant the rights to its Contributions conveyed by this License.

2.6. Fair Use

This License is not intended to limit any rights You have under applicable copyright doctrines of fair use, fair dealing, or other equivalents.

2.7. Conditions

Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted in Section 2.1.

3. Responsibilities

3.1. Distribution of Source Form

All distribution of Covered Software in Source Code Form, including any Modifications that You create or to which You contribute, must be under the terms of this License. You must inform recipients that the Source Code Form of the Covered Software is governed by the terms of this License, and how they can obtain a copy of this License. You may not attempt to alter or restrict the recipients' rights in the Source Code Form.

3.2. Distribution of Executable Form

If You distribute Covered Software in Executable Form then:

a. such Covered Software must also be made available in Source Code Form, as described in Section 3.1, and You must inform recipients of the Executable Form how they can obtain a copy of such Source Code Form by reasonable means in a timely manner, at a charge no more than the cost of distribution to the recipient; and

b. You may distribute such Executable Form under the terms of this License, or sublicense it under different terms, provided that the license for the Executable Form does not attempt to limit or alter the recipients' rights in the Source Code Form under this License.

3.3. Distribution of a Larger Work

You may create and distribute a Larger Work under terms of Your choice, provided that You also comply with the requirements of this License for the Covered Software. If the Larger Work is a combination of Covered Software with a work governed by one or more Secondary Licenses, and the Covered Software is not Incompatible With Secondary Licenses, this License permits You to additionally distribute such Covered Software under the terms of such Secondary License(s), so that the recipient of the Larger Work may, at their option, further distribute the Covered Software under the terms of either this License or such Secondary License(s).

3.4. Notices

You may not remove or alter the substance of any license notices (including copyright notices, patent notices, disclaimers of warranty, or limitations of liability) contained within the Source Code Form of the Covered Software, except that You may alter any license notices to the extent required to remedy known factual inaccuracies.

3.5. Application of Additional Terms

You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, You may do so only on Your own behalf, and not on behalf of any Contributor. You must make it absolutely clear that any such warranty, support, indemnity, or liability obligation is offered by You alone, and You hereby agree to indemnify every Contributor for any liability incurred by such Contributor as a result of warranty, support, indemnity or liability terms You offer. You may include additional disclaimers of warranty and limitations of liability specific to any jurisdiction.

4. Inability to Comply Due to Statute or Regulation

If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Software due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be placed in a text file included with all distributions of the Covered Software under this License. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.

5. Termination

5.1. The rights granted under this License will terminate automatically if You fail to comply with any of its terms. However, if You become compliant, then the rights granted under this License from a particular Contributor are reinstated (a) provisionally, unless and until such Contributor explicitly and finally terminates Your grants, and (b) on an ongoing basis, if such Contributor fails to notify You of the non-compliance by some reasonable means prior to 60 days after You have come back into compliance. Moreover, Your grants from a particular Contributor are reinstated on an ongoing basis if such Contributor notifies You of the non-compliance by some reasonable means, this is the first time You have received notice of non-compliance with this License from such Contributor, and You become compliant prior to 30 days after Your receipt of the notice.

5.2. If You initiate litigation against any entity by asserting a patent infringement claim (excluding declaratory judgment actions, counter-claims, and cross-claims) alleging that a Contributor Version directly or indirectly infringes any patent, then the rights granted to You by any and all Contributors for the Covered Software under Section 2.1 of this License shall terminate.

5.3. In the event of termination under Sections 5.1 or 5.2 above, all end user license agreements (excluding distributors and resellers) which have been validly granted by You or Your distributors under this License prior to termination shall survive termination.

6. Disclaimer of Warranty

Covered Software is provided under this License on an “as is” basis, without warranty of any kind, either expressed, implied, or statutory, including, without limitation, warranties that the Covered Software is free of defects, merchantable, fit for a particular purpose or non-infringing. The entire risk as to the quality and performance of the Covered Software is with You. Should any Covered Software prove defective in any respect, You (not any Contributor) assume the cost of any necessary servicing, repair, or correction. This disclaimer of warranty constitutes an essential part of this License. No use of any Covered Software is authorized under this License except under this disclaimer.

7. Limitation of Liability

Under no circumstances and under no legal theory, whether tort (including negligence), contract, or otherwise, shall any Contributor, or anyone who distributes Covered Software as permitted above, be liable to You for any direct, indirect, special, incidental, or consequential damages of any character including, without limitation, damages for lost profits, loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses, even if such party shall have been informed of the possibility of such damages. This limitation of liability shall not apply to liability for death or personal injury resulting from such party's negligence to the extent applicable law prohibits such limitation. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so this exclusion and limitation may not apply to You.

8. Litigation

Any litigation relating to this License may be brought only in the courts of a jurisdiction where the defendant maintains its principal place of business and such litigation shall be governed by laws of that jurisdiction, without reference to its conflict-of-law provisions. Nothing in this Section shall prevent a party's ability to bring cross-claims or counter-claims.

9. Miscellaneous

This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not be used to construe this License against a Contributor.

10. Versions of the License

10.1. New Versions

Mozilla Foundation is the license steward. Except as provided in Section 10.3, no one other than the license steward has the right to modify or publish new versions of this License. Each version will be given a distinguishing version number.

10.2. Effect of New Versions

You may distribute the Covered Software under the terms of the version of the License under which You originally received the Covered Software, or under the terms of any subsequent version published by the license steward.

10.3. Modified Versions

If you create software not governed by this License, and you want to create a new license for such software, you may create and use a modified version of this License if you rename the license and remove any references to the name of the license steward (except to note that such modified license differs from this License).

10.4. Distributing Source Code Form that is Incompatible With Secondary Licenses

If You choose to distribute Source Code Form that is Incompatible With Secondary Licenses under the terms of this version of the License, the notice described in Exhibit B of this License must be attached.

The FreeType Project LICENSE

2006-Jan-27

Copyright 1996-2002, 2006 by

David Turner, Robert Wilhelm, and Werner Lemberg

Introduction

=====

The FreeType Project is distributed in several archive packages; some of them may contain, in addition to the FreeType font engine, various tools and contributions which rely on, or relate to, the FreeType Project.

This license applies to all files found in such packages, and which do not fall under their own explicit license. The license affects thus the FreeType font engine, the test programs, documentation and makefiles, at the very least.

This license was inspired by the BSD, Artistic, and IJG (Independent JPEG Group) licenses, which all encourage inclusion and use of free software in commercial and freeware products alike. As a consequence, its main points are that:

- o We don't promise that this software works. However, we will be interested in any kind of bug reports. ('as is' distribution)
- o You can use this software for whatever you want, in parts or full form, without having to pay us. ('royalty-free' usage)

o You may not pretend that you wrote this software. If you use it, or only parts of it, in a program, you must acknowledge somewhere in your documentation that you have used the FreeType code. ('credits')

We specifically permit and encourage the inclusion of this software, with or without modifications, in commercial products. We disclaim all warranties covering The FreeType Project and assume no liability related to The FreeType Project.

Finally, many people asked us for a preferred form for a credit/disclaimer to use in compliance with this license. We thus encourage you to use the following text:

""

Portions of this software are copyright <year> The FreeType Project (www.freetype.org). All rights reserved.

""

Please replace <year> with the value from the FreeType version you actually use.

Legal Terms

=====

0. Definitions

Throughout this license, the terms `package', `FreeType Project', and `FreeType archive' refer to the set of files originally distributed by the authors (David Turner, Robert Wilhelm, and Werner Lemberg) as the `FreeType Project', be they named as alpha, beta or final release.

`You' refers to the licensee, or person using the project, where `using' is a generic term including compiling the project's source code as well as linking it to form a `program' or `executable'.

This program is referred to as `a program using the FreeType engine'.

This license applies to all files distributed in the original

FreeType Project, including all source code, binaries and documentation, unless otherwise stated in the file in its original, unmodified form as distributed in the original archive.

If you are unsure whether or not a particular file is covered by this license, you must contact us to verify this.

The FreeType Project is copyright (C) 1996-2000 by David Turner, Robert Wilhelm, and Werner Lemberg. All rights reserved except as specified below.

1. No Warranty

THE FREETYPE PROJECT IS PROVIDED 'AS IS' WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT WILL ANY OF THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY DAMAGES CAUSED BY THE USE OR THE INABILITY TO USE, OF THE FREETYPE PROJECT.

2. Redistribution

This license grants a worldwide, royalty-free, perpetual and irrevocable right and license to use, execute, perform, compile, display, copy, create derivative works of, distribute and sublicense the FreeType Project (in both source and object code forms) and derivative works thereof for any purpose; and to authorize others to exercise some or all of the rights granted herein, subject to the following conditions:

- o Redistribution of source code must retain this license file ('FTL.TXT') unaltered; any additions, deletions or changes to the original files must be clearly indicated in accompanying documentation. The copyright notices of the unaltered, original files must be preserved in all copies of source files.
- o Redistribution in binary form must provide a disclaimer that

states that the software is based in part of the work of the FreeType Team, in the distribution documentation. We also encourage you to put an URL to the FreeType web page in your documentation, though this isn't mandatory.

These conditions apply to any software derived from or based on the FreeType Project, not just the unmodified files. If you use our work, you must acknowledge us. However, no fee need be paid to us.

3. Advertising

Neither the FreeType authors and contributors nor you shall use the name of the other for commercial, advertising, or promotional purposes without specific prior written permission.

We suggest, but do not require, that you use one or more of the following phrases to refer to this software in your documentation or advertising materials: `FreeType Project', `FreeType Engine', `FreeType library', or `FreeType Distribution'.

As you have not signed this license, you are not required to accept it. However, as the FreeType Project is copyrighted material, only this license, or another one contracted with the authors, grants you the right to use, distribute, and modify it.

Therefore, by using, distributing, or modifying the FreeType Project, you indicate that you understand and accept all the terms of this license.

4. Contacts

There are two mailing lists related to FreeType:

- o freetype@nongnu.org

Discusses general use and applications of FreeType, as well as future and wanted additions to the library and distribution.

If you are looking for support, start in this list if you haven't found anything to help you in the documentation.

o freetype-devel@nongnu.org

Discusses bugs, as well as engine internals, design issues, specific licenses, porting, etc.

Our home page can be found at

<http://www.freetype.org>

SIL OPEN FONT LICENSE Version 1.1 - 26 February 2007

PREAMBLE

The goals of the Open Font License (OFL) are to stimulate worldwide development of collaborative font projects, to support the font creation efforts of academic and linguistic communities, and to provide a free and open framework in which fonts may be shared and improved in partnership with others.

The OFL allows the licensed fonts to be used, studied, modified and redistributed freely as long as they are not sold by themselves. The fonts, including any derivative works, can be bundled, embedded, redistributed and/or sold with any software provided that any reserved

names are not used by derivative works. The fonts and derivatives, however, cannot be released under any other type of license. The requirement for fonts to remain under this license does not apply to any document created using the fonts or their derivatives.

DEFINITIONS

"Font Software" refers to the set of files released by the Copyright Holder(s) under this license and clearly marked as such. This may include source files, build scripts and documentation.

"Reserved Font Name" refers to any names specified as such after the copyright statement(s).

"Original Version" refers to the collection of Font Software components as distributed by the Copyright Holder(s).

"Modified Version" refers to any derivative made by adding to, deleting, or substituting -- in part or in whole -- any of the components of the Original Version, by changing formats or by porting the Font Software to a new environment.

"Author" refers to any designer, engineer, programmer, technical writer or other person who contributed to the Font Software.

PERMISSION & CONDITIONS

Permission is hereby granted, free of charge, to any person obtaining a copy of the Font Software, to use, study, copy, merge, embed, modify, redistribute, and sell modified and unmodified copies of the Font Software, subject to the following conditions:

- 1) Neither the Font Software nor any of its individual components, in Original or Modified Versions, may be sold by itself.
- 2) Original or Modified Versions of the Font Software may be bundled, redistributed and/or sold with any software, provided that each copy contains the above copyright notice and this license. These can be included either as stand-alone text files, human-readable headers or in the appropriate machine-readable metadata fields within text or binary files as long as those fields can be easily viewed by the user.
- 3) No Modified Version of the Font Software may use the Reserved Font

Name(s) unless explicit written permission is granted by the corresponding Copyright Holder. This restriction only applies to the primary font name as presented to the users.

4) The name(s) of the Copyright Holder(s) or the Author(s) of the Font Software shall not be used to promote, endorse or advertise any Modified Version, except to acknowledge the contribution(s) of the Copyright Holder(s) and the Author(s) or with their explicit written permission.

5) The Font Software, modified or unmodified, in part or in whole, must be distributed entirely under this license, and must not be distributed under any other license. The requirement for fonts to remain under this license does not apply to any document created using the Font Software.

TERMINATION

This license becomes null and void if any of the above conditions are not met.

DISCLAIMER

THE FONT SOFTWARE IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT OF COPYRIGHT, PATENT, TRADEMARK, OR OTHER RIGHT. IN NO EVENT SHALL THE COPYRIGHT HOLDER BE LIABLE FOR ANY CLAIM, DAMAGES OR OTHER LIABILITY, INCLUDING ANY GENERAL, SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, WHETHER IN AN ACTION OF CONTRACT, TORT OR OTHERWISE, ARISING FROM, OUT OF THE USE OR INABILITY TO USE THE FONT SOFTWARE OR FROM OTHER DEALINGS IN THE FONT SOFTWARE.

Terms and Conditions for use, reproduction, and distribution

1. Definitions

“License” shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

“Licensor” shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

“Legal Entity” shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, “control” means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

“You” (or “Your”) shall mean an individual or Legal Entity exercising permissions granted by this License.

“Source” form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

“Object” form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

“Work” shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

“Derivative Works” shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

“Contribution” shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, “submitted” means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as “Not a Contribution.”

“Contributor” shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License

Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare

Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License

Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution

You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions

Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks

This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty

Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability

In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability

While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.
