ABBYY

ABBYY® FineReader® PDF Campus Licenses for Universities and Schools

ABBYY FineReader PDF is a high-quality, comprehensive PDF tool, featuring ABBYY's integrated market-leading OCR technology, that enables teachers, researchers, students, and administration to be significantly more productive and efficient.

Digital transformation for educational organizations

FineReader PDF addresses the digital transformation of research and classroom instruction by facilitating teaching and learning from paper and digital books, magazines, scientific publications, and other materials and enabling quick, reliable content search, extraction, reuse, and preparation. With FineReader PDF, teachers, administrators, and other educational users can

1. Create teaching materials and worksheets using content from different resources — without manually retyping

2. Review student assignments digitally, using PDF documents instead of paper

3. Quickly find information in educational materials across formats, including PDFs, scans, and documents converted from paper

4. Quote information sources and reuse printed, scanned, and PDF-sourced tables easily

5. Digitize research papers and reports into searchable, reliable PDF or PDF/A formats for easy access and retrieval

6. Provide students with visual impairments and reading disorders equal access to educational materials by converting documents into accessible PDF/UA files

7. Collaborate on studies, research papers, and reports easily

8. Streamline document-heavy administrative processes

Campus Licenses: Tailored for educational organizations

With ABBYY Campus Licenses, specifically tailored for universities and schools, educational institutions can deploy ABBYY FineReader PDF across all institutionally owned PCs in schools or campuses of various sizes. Campus Licenses offer educational institutions exceptional value for the money for campus-wide usage.

Exceptional value and flexibility for institutions of different sizes

With tiered subscription plans, Campus Licenses offer flexible and cost-efficient options for academic institutions to suit budgets ranging from smaller schools to large universities. There is no need to define the exact number of licenses—choose a range and install as many copies as needed within the selected range (see "Pricing Levels" below). Add more installations (within the range) as usage grows. Change the range as needed annually when renewing subscriptions for the following year.

Easy mass deployment and usage

In campus IT infrastructures, which can be quite heterogenous, install FineReader PDF without complications. With Campus Licenses, installation is done in the simplest way possible. Any user can use FineReader PDF installed on computers in public places such as classrooms, libraries, etc.

Up to date with the latest improvements

Subscription plans for Campus Licenses include Software Maintenance and Upgrade Assurance, which always keeps you equipped with the most recent FineReader PDF updates and technical support.

For both Windows and Mac

With the Campus Licenses offer, both FineReader PDF 15 for Windows and FineReader PDF for Mac are available, making it ideal for educational organizations using devices of both types across their campuses (see "Pricing levels" and "Overview of available software" below).

Eligibility

Schools, universities, libraries, and museums of any size are eligible for any of the available Campus License pricing levels.

Pricing levels

Pricing levels are based on ranges of the number of institutionally owned computers onto which FineReader PDF will be installed. The price for a level reflects the total price for a given range regardless of actual numbers of required installations (within the range) or device types. Changing the price level, if needed, is simple[1].

For a price quote, please see the ABBYY Campus License price list or consult an ABBYY channel partner in your region.

Campus License – School

Offers FineReader PDF Standard for Windows computers and FineReader PDF for Mac for macOS computers, within the ranges of 5-50 and 51-500 installations, suitable for schools of different sizes. Paid on 1-year or 3-year subscription basis. No compliance concerns and no hassle of authorization for purchase and installation of every additional license.

Campus License – Uni

Offers FineReader PDF Corporate for Windows computers and FineReader PDF for Mac for macOS computers, for use by administrative and research staff in computer and study rooms, etc. Flexible ranges of 501-2,000, 2,001-4,000, and 4,001+ installations are tailored for universities of different sizes. Paid on 1-year or 3-year subscription basis.

Student Add-ons are ideal for equipping students with FineReader PDF on their privately owned devices. A school or a university with a Campus License can purchase additional licenses for their students as Student Add-ons at an affordable price point. Choose between FineReader PDF 15 (for Windows®) and FineReader PDF for Mac®. License packages consist of 50 (for Mac®) or 100 (for Windows®) licenses. One-time purchase.

Student Add-ons cannot be purchased separately and must be purchased by the same school or university that purchased the Campus License.

[1] In some cases, updating of existing installations may be required due to different FineReader PDF editions and/or technically different types of licenses supplied for specific price levels. For details, please consult your ABBYY sales representative.

Campus Licenses - Overview of available software

Terms and conditions

- The price specified for a range is fixed for any number of installations within the limits specified for the range. Number of Windows and macOS installations can be any within the limits of total number of installations that is specified by the range.

- FineReader PDF with Campus Licenses can be installed only on institution-owned computers, across all the institution's facilities and campuses. Installation or other distribution to any third party, including installation onto students' private computers, is not allowed.

- Campus Licenses (excluding Student Add-ons) are sold on subscription basis. If subscription is cancelled, the institution must stop using the software and uninstall it completely.

- Educational institutions that purchase Campus licenses are eligible to purchase add-on packs of standalone licenses (Student Add-ons), which can be provided to students for use on their private computers.

- Students Add-ons are one-time purchase, perpetual licenses that are not subject for annual renewal.
